15TH YEAR. NO. 253.

EAST LIVERPOOL, O., SATURDAY, APRIL 7, 1900.

TWO CENTS

## JOHN PURVIS IS ACQUITTED

Found Not Guilty By New Cumberland Jury of Murder of John Cummings.

## JURY OUT BUT A SHORT TIME

Parvis Left Immediately After His Release This Afternoon For Wellsville.

## THE VERDICT WAS EXPECTED.

New Cumberland, W. Va., April 7.—(Special.)—John Purvis has been acquitted of the murder of John Cummings. The jury which heard the evidence went out at 10:30 o'clock this morning and at noon returned a verdict of not guilty.

Purvis was immediately released from custody and this afternoon will leave for Wellsville. Joe Willis, who is wanted in connection with the case, is still at liberty.

## DISMISSED.

The Case Against John Kountz is Off the Docket—Burgess Is Firm.

The case against John Kountz for disorderly conduct was dismissed last night after hanging fire for several weeks. E. L. Hughes, the other party who was implicated in the fight, is in Pennsylvania and his case will not be heard until he gets back.

Moody Coburn went to sleep yesterday afternoon in Rinehart's livery stable. He was arrested and after being in jail all night was released and will have a hearing tonight.

Sanitary Officer Burgess told the mayor about the dog Officer Wood killed, and the mayor talked to Wood and told him he had better pay the 25 cents and save a clash. Wood hasn't paid it yet, and Burgess asserts that he will push the case. He also says he has notified the street railway company that they must in the future bury all dogs killed by their cars.

Graham, 109 81-100 acres in Elkrum township, \$4,000; Geo. B. Harvey and wife to N. J. Handte, lot 2 in Filson's addition to Lisbon, \$350; John W. Croxall to Potters' National bank, parts of lots 231-232, East Liverpool, \$2,000, and other valuable considerations requiring in all \$12 revenue stamps; Cyrus Chamberlain and wife to Moses C. Harrison, lot 9, Columbiana, \$1,000; Moses C. Harrison to Cyrus Chamberlain, 15-100 acre, Columbiana, \$2,000; A. H. Harris to E. E. Paulin and wife, lot 203, in Gaskill's addition to Salem, \$900.

## QUEER REPORTS.

Made By Physicians When Reporting Causes of Death to Health Officer Ogden.

Health Officer Charles B. Ogden, while at the city hall last evening, told the story of how some physicians reported deaths. "Indeed," said Dr. Ogden, "within the last year I received reports from two physicians which puzzled me. A report one physician sent me read, 'died from want of breath.' I went to this physician and asked him if he meant to say that and he said his report was correct. Another report I received not long ago read, 'sick since birth.' This case was that of a small child, and to this day I have not found out the cause of death."

## MAY GET RICH.

Sand in Good Oil Territory Leased by Four Local Men.

What promises to be a valuable oil territory has been leased in Monroe county, one mile from Greysville, by Charles Patterson, L. C. Buckley, George P. Kinney and F. L. Lowers, of this city. The men have leased 88½ acres, and oil has been struck all around the territory. One well is expected in today within 100 yards of the lease. The men have received several good offers for their lease, but all have been refused.

## STARK COUNTY VOTING TODAY

Taylor-Baker Fight Now Raging Over In Canton, Alliance and Other Battlegrounds.

## MAHONING IS ALL TORN UP

Two Sets of Delegates to the Convention and Maybe Two Conventions.

## BIG FIGHT IS BREWING THERE.

Canton, April 7.—(Special.)—Stark county Republicans are today holding their congressional primary. The fight is the same as that in Columbiana county March 24, there being but the two candidates, R. W. Taylor and C. C. Baker. Both sides claim a walk-over. There will probably be an average vote out.

Stark county has 108 delegates to the Alliance convention, so that with the 81 already chosen in Columbiana, 189 delegates will be elected when the polls close here this evening. But 126 are necessary to nominate. If Taylor, with 56½ from Columbiana, wins 69½ here today the fight will be over. Baker to win today would need 101½, an apparent impossible calculation, so if Taylor fails to land 69½ in Stark today Mahoning will have to settle it.

## GREAT SCRAP.

PROMISED AT MAHONING COUNTY CONVENTION.

McNab, Norris and Kennedy Struggling for Congressional Delegates at Long Range.

Youngstown, April 7.—(Special.)—The indications now are that Mahoning county will have two sets of delegates to its Republican county convention, which is to nominate its choice for congress, and possibly there may be two county conventions.

James Thomas, candidate for sheriff, backed by Congressional Candidate McNab, has named one set of delegates, and Candidates Norris and Kennedy named another delegation.

The rule in vogue in this county was that the candidate having the highest number of votes for a county nomination should name the delegates to the county convention, which will select the delegates to the congressional convention. Thomas claimed to have received the highest number of votes and the right to name the delegates. His opponents desiring to get control of the county delegates and through them the congressional delegates out of his hands, worked a scheme whereby there was a contest for another office, and their candidate getting the highest number of votes, was to name the county convention delegates. The county executive committee will be called upon to decide whether under the rules Thomas, who was unopposed and consequently received the highest number of votes for his office, shall name the delegates or whether the candidate for the other office, who received the higher number of votes in a contested nomination, shall do so.

## ORGANIZED.

NEW CENTRAL COMMITTEE ELECTED OFFICERS.

George H. Owen Was Re-Elected Chairman to Serve Another Year.

The Republican central committee met last evening at city hall, and the old committee finished up their business and adjourned sine die. The members of the new committee organized by electing George H. Owen chairman. Clerk James N. Hanley positively declined to be re-elected secretary and Joe Betz was chosen. A. W. Thomas was elected treasurer, and was designated as the "War Horse" of the committee. Chairman Owen announced that it would be a long time until the committees would have anything to do, so he would not announce any of his committees until the time for opening the presidential campaign.

## CITY COUNCIL.

Councilman J. T. Smith Desires Harmony in Preference to Any Official Position.

There are two aspirants for the position of president of council, Dr. R. J. Marshall, of the Fifth ward, and J. T. Smith, of the Second ward. Either of these gentlemen will, if elected, fill the berth acceptably to the people. Both are brainy business men, and either one will no doubt do everything in his power to show the people that his fellow members acted wisely and well in their selection of a presiding officer.

J. T. Smith was interviewed this afternoon, and while he would gladly accept the honor if conferred upon him by his fellow members he prefers private membership and harmony to office and discord. He further states that certain of his fellow members have asked him, in case he is elected as president, that they should be placed upon certain committees and he made response that he had no objection, but so far as any definite promise is concerned he stands absolutely free and untrammelled, as no other course would be wise or just or right in the presiding officer of any organization, especially in such an important berth as president of the city council, where vital interests are at stake, and where any other course might work serious injury and injustice to the citizens at large.

## Veteran Dead.

Thomas Johnson, of Beaver Falls, died at that place this morning. The funeral will take place Monday afternoon at 2 o'clock. Deceased was an old veteran with a splendid record. Perry Johnson, well known here, is a brother of the deceased. There are many friends and relatives of both in East Liverpool. Thomas Johnson was a cousin of Mrs. J. D. West.

## Girl Mysteriously Killed.

GLADSTONE, Mich., April 7.—Miss Lydia Barstar, 23 years old, was shot and instantly killed at Isabella, where she was teaching school. Few particulars have been received by her parents here, but it is understood that a stray bullet entered the school house window and passed through her heart.

## WEATHER FORECAST.

Western Pennsylvania—Showers and warmer today; tomorrow, showers, brisk southerly winds.

Ohio—Showers today or tonight, with warmer in eastern portion; probably showers tomorrow; brisk southerly winds, becoming variable.

West Virginia—Rain this afternoon or tonight; rain Sunday; westerly winds.

## W. W. TRUSTEES FINISH THE YEAR

By Granting a Number of Petitions For New Water Mains.

## THE NEW BOARD ORGANIZED

By Electing W. L. Smith President and Jacob Shenkel Vice-President.

## NEW MAIN FOR FOURTH STREET

The water works trustees met last night and paid a number of bills. A petition was received from the residents of McKinnon's addition asking that a main be laid along McKinnon street. The petition was received and ordered filed. A petition from residents of Helana asked that 350 feet of pipe be laid in an alley in that section of the city. The petition was granted. Kossuth street residents wanted a four inch main from Walnut street to College street. Their request was granted. This finished the business of the old board, and they adjourned sine die.

The new board met at once and organized by electing the following officers:

President, W. L. Smith; vice president, Jacob Shenkel; Superintendent, Phil Morley; assistant superintendent, Edward Cox; secretary, J. W. Gipner.

Superintendent Morley stated that council proposed to have Fourth street paved this year, and that the four inch main on the street was badly corroded and did not furnish ample fire protection. He recommended that a six inch main be laid on the street before it was paved. He was instructed to measure up the distance and estimate the cost of the improvement and report at a special meeting to be held at his call.

### WELSBACH LIGHTS.

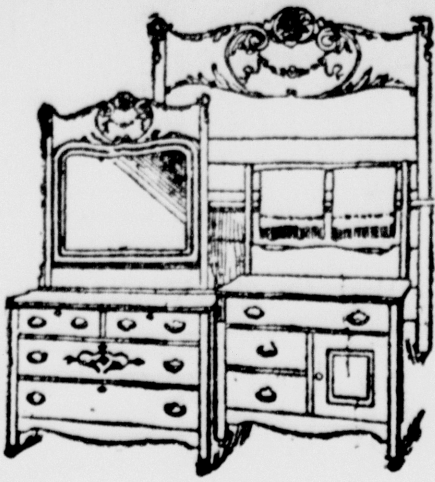

News Review Readers Will Be Interested in the Following Statement.

The Welsbach light has become very popular, and justly so, in this section. It is a great gas saver, and at the same time gives a very soft and mellow light, proving a source of great gratification to students and readers, and indeed to patrons and users in general. Calling at the Ohio Valley Gas company's office this morning on a business mission, we had the pleasure of an introduction to Mr. Chas. J. Beardsley, agent for the Welsbach department. Mr. Beardsley will be located with us permanently, and he will take your orders for lamps and give all information required respecting the same. You will find Mr. Beardsley on duty at the office of the Ohio Valley Gas company.

### WINE OF CARDUI

#### Woman's—Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE

### Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

## PULLMAN PARLOR CARS.

Improving the Train Service to Pitts-  
burg and Cleveland via Penn-  
sylvania Lines.

New Pullman parlor cars have taken  
the place of the parlor cars running  
on trains Nos. 337 and 338, between  
Pittsburg and Cleveland over the  
Pennsylvania lines. The new cars are  
the latest pattern turned out by the  
Pullman company and are finished  
and furnished in a substantial man-  
ner. They have roomy and comforta-  
ble revolving arm chairs, wide plate  
glass windows, commodious smoking  
apartment and a large retiring room  
for ladies. This room is fitted up with  
dresser and plate glass mirror. The  
new cars leave East Liverpool for  
Cleveland at 2:49 p. m. and for Pitts-  
burg at 7:04 p. m., central time, week  
days.

## ESTATES IN COURT.

Probate Court at Lisbon Busy Adjust-  
ing Affairs of the

### Dead.

Lisbon, April 7.—(Special.)—James  
Charters, as executor of Elizabeth  
Mather's estate, was today authorized  
to sell personal property at private  
sale within two months.

The will in the estate of Susanna  
Hudson, late of Fairfield township,  
was filed for probate and a commis-  
sion issued to take testimony of sub-  
scribing witnesses.

In the estate of Cynthia Bradshaw,  
late of East Liverpool, an order of  
private sale was issued for personal  
property.

Milton Behner filed an application  
to be released from the bond of C. A.  
Guthrie, guardian of Elizabeth Nogle.

### Understands His Business.

Mr. George D. Winnie, now in our  
city, representing the American Reg-  
istry company, is a courteous, clever  
gentleman and man of the world. He  
is a fluent conversationalist and  
clenches his arguments in a manner  
which prevents successful contradic-  
tion. It is a genuine pleasure to listen  
to him. He represents good features  
in accident policies, and will convince  
you of the fact when you give him  
the opportunity. We know. He con-  
vinced us against our will.

### Salineville Graduates.

Salineville's high school will grad-  
uate a class of seven, composed of  
Misses Isabel Strabley, Mary Maloney,  
May Hays, Maude McGillivray and  
Messrs. Harry Dallas, Firman Dor-  
rance and John McIntosh.

### COMMON PROPERTY.

Public Praise is Public Property—East  
Liverpool People May Profit  
by Local Experience.

Grateful people will talk.

Tell their experience for the public  
good.

East Liverpool people praise Doan's  
Kidney Pills.

Kidney sufferers appreciate this.

They find relief for every kidney ill.  
Read what this citizen says:

Mr. Jacob Schenkle, tonsorial artist,  
whose parlor is at 138 Sixth street,  
says: "I had for several years a  
weak back and kidneys, severe pains  
across the loins around through my  
thighs, at times so bad that it was im-  
possible for me to get out of bed,  
cramps through my limbs and frequent  
attacks of dizziness. It was probably  
the result of a neglected cold. Be-  
that as it may, I suffered with the at-  
tacks. I was recommended to try  
Doan's Kidney Pills, and procured a  
box at the W. & W. pharmacy. They  
so thoroughly removed my trouble and  
so acted as a general tonic that I have  
had no bother after the treatment and  
could not feel better."

For sale by all dealers. Price 50  
cents per box. Foster-Milburn Co.,  
Buffalo, N. Y., sole agents for the  
United States.

Remember the name—Doan's—and  
take no other.

good.

## Dreams of the Maimed.

M. de Manacine, the Russian psychol-  
ogist, mentions the case of a person  
born without arms or feet who always  
dreamed that he had been mutilated.  
Now, it should be borne in mind, he  
says, that the majority of persons born  
without arms or feet always dream  
that they possess these extremities. It  
is evident, he maintains, that this dif-  
ference results, in the first instance,  
from weak impressions hereditarily  
transmitted, and in the second instance  
from the strength and precision of  
these impressions. Persons whose  
limbs have been amputated are subject  
to curious delusions while asleep. They  
never dream that they are walking on  
crutches; quite the contrary, they in-  
variably dream that they are walking  
with their feet, with this difference  
only—that as time passes their extren-  
ities appear to become shorter and  
shorter.

M. de Manacine mentions as a curi-  
ous fact that this hallucination is very  
pronounced when the wound has healed  
without complications; while on the  
other hand there is no hallucination  
when the process of cicatrization has  
been painful. Moreover, we find the  
reason of this difference in the greater  
or lesser intensity of the sensations ex-  
perienced. Still, if the dreams of ab-  
normally formed persons are charac-  
terized by certain peculiarities, they  
are none the less subjected, as are other  
dreams, to the mysterious conditions of  
the human organism, and, like other  
dreams, their repercussion on the  
wakeful state is identical.

## Cautious Procedure.

"Colonel, if you called a man a liar,  
you would surely expect a fight, would  
you not?" asked the stranger from the  
north.  
"No, sah," replied the colonel. "We  
don't call a man a liar down here until  
we have shot him fust, sah, so full of  
holes that there is no fight in him, sah."  
—Indianapolis Press.

against the girls, but when one gets  
married nowadays it doesn't seem to  
make any more housework for the  
mother than she had before her daugh-  
ter's departure.—Atchison Globe.

## COMING ATTRACTIONS.

### "A Hot Old Time."

The success of "A Hot Old Time,"  
which comes to the Grand on Tues-  
day evening, is of a substantial sort  
that admits of no argument. The  
play is now in its third season and  
it has steadily grown in favor since  
its original production at the Star  
theater, New York. The fact that it  
has invariably played to increased re-  
ceipts on return engagements is con-  
clusive evidence that it is well worth  
seeing.

### "A Black Sheep."

All the hilarity and jovial ceremon-  
ies which attend the presentation  
here of anything new from the pen of  
the clever and most popular play-  
right, Charles Hoyt, will come into  
evidence next Thursday evening at  
the Grand, when "A Black Sheep," his  
most successful and funniest work,  
will be the attraction.

### Rentz-Santley Burlesque.

Those famous duettists, the Misses  
Personi and Romaire, are one of the  
many attractions with the Rentz-  
Santley Burlesque company, who play  
an engagement at the Grand opera  
house next Wednesday night, April  
11, when they will present their latest  
terpsichorean successes. What these  
little dashing danseuses do not  
know about the art of extracting  
music with the feet is not worth learn-  
ing, and their sweet voices lend a  
pleasing accompaniment to the patter  
of their tiny feet.

### An Overcautious Wife.

An incident occurred at the redem-  
tion bureau of the treasury which  
ought to be a warning to wives. A  
woman in New England placed \$48 in  
bank bills in the oven of the kitchen  
stove in order to hide it from her hus-  
band. She forgot to take it out, and in  
the morning he kindled a hot fire and  
reduced the money to a crisp before  
his wife remembered where it was.  
She picked up the ashes, enough to  
half fill a wineglass, put them in a lit-  
tle box and sent them down to Wash-  
ington to be redeemed. The experts,  
by the use of magnifying glasses, iden-  
tified the bills to the amount of \$36  
and sent her that money, but it cost  
her \$12 to fool her husband, and she  
will probably not try it again.

# BOARD OF HEALTH ANNUAL REPORT

Health Officer Ogden's Yearly Re-  
view Presented to the Board  
Last Night.

## 433 BIRTHS AND 180 DEATHS

More Males Were Born and More  
Males Died Than Females Dur-  
ing the Past Year.

MARCH HAD 16 TYPHOID CASES.

The last meeting of the old board  
of health was to have been held at  
city hall last evening, but only two  
members, Messrs. Chambers and  
Haines, and Clerk Ferran were pres-  
ent. The new board will be organized  
at the next meeting.

The health officer's report for the  
month of March was as follows:  
Births, males 22, females 12; deaths,  
males 5, females 8; causes of death,  
meningitis 5, pneumonia 2, consump-  
tion 2, tumor of brain 1, cancer 1,  
blood poison 1, brain fever 1. During  
the month 16 cases of typhoid fever  
and one case of diphtheria were re-  
ported.

The sanitary officer during the  
month ordered seven vaults cleaned  
and buried 14 dogs and cats killed.

The annual report of Health Officer  
Charles B. Ogden was as follows:

The health of the city has been  
good during the past year, and is at  
present in an excellent state. The  
largest number of deaths from one  
disease was caused by pneumonia,  
which claimed 23 people. Typhoid fe-  
ver caused the death of 17 cases, and  
14 cases of consumption have proved  
fatal.

The number of deaths from all dis-  
eases was 180, being about 10 in 1,000  
of the population, estimated at 18,000.

The number of births exceeded the  
number of deaths by 253. Two hun-  
dred and thirty-one boys and 202 girls  
were added to the population of the  
city within the time covered by the  
report.

The persistent continuance of ty-  
phoid fever in this city can fairly be  
ascribed to the impure water gener-  
ally used, and we hope the improve-  
ments now being made by the city  
water works trustees will, in the  
near future, materially assist in re-  
ducing the number of cases of this  
form of disease.

Out of 22 cases of diphtheria only  
one proved fatal; out of 40 cases of  
scarlet fever none were fatal, and  
out of 134 cases of typhoid fever only  
17 resulted in death. All houses  
where infectious diseases have been  
were properly placarded and thor-  
oughly fumigated in compliance with  
law.

### Sanitary Conditions.

The excellent sanitary condition of  
the public school buildings, which  
have all been visited and examined  
by the health officer, is deserving of  
praise, and denotes good work and  
close attention to details on the part  
of those having the buildings in  
charge.

We note with feelings of pleasure  
that the sewer in district No. 2 will  
soon be under construction, and hope  
that this branch of the public improve-  
ment may be pushed to completion as  
soon as possible.

We again urgently and respect-  
fully call your attention to the filthy  
condition of the alleys in the cen-  
tral part of the city, and suggest that  
they be paved with brick, as it is  
very difficult to clear away the refuse  
matter which is thrown into them,  
and which stuff creates a stench dur-  
ing the warm season that cries aloud  
for removal.

There have not been any prosecu-  
tions for violation of the sanitary laws  
of the city.

## SEVERAL PLANTS SHORT OF WARE

Unusually Heavy Trade During  
the Holidays Is What  
Did It.

## THERE WAS MUCH SICKNESS

Among the Workmen and the Pot-  
teries Have Had No Time to  
Stock Up.

## DRESDEN'S NEW GAS BURNER.

Nearly every pottery in the city is at present experiencing a shortage of ware. This is caused by the unusually heavy trade during the holidays and the fact that there has been much sickness among the workmen. The potteries will not be able to catch up until orders fall off considerably and they can stock up. Another reason for the shortage is the fact that trade on shapes is continually shifting, and as soon as the potteries get a good line of one shape on hand trade leaves that shape and goes to another. It is almost impossible to keep up assortments, and the principal shortage is on cups. An illustration of how busy the potteries are is in the fact that a few days ago a party went to one of the potteries and wanted an underglazed dinner set. It was a special order and ordinarily would only take four or five days to get it out. The pottery would not promise to deliver that dinner set until July.

## CERAMICS.

### SEVERAL POINTS IN THE HISTORY OF POTTERY.

Pottery Was Used By the Babylonians  
and Assyrians for Their  
Public Archives.

The use of pottery dates far back into antiquity. The Assyrians and the Babylonians made use of it for their public archives, historical annals, astronomical calculations and the like, these things being imprinted on soft clay tablets, cylinders and hexagonal prisms, which were afterward hardened by baking. The Egyptians attributed the art of pottery to their gods, proof that it was in use before the historical period. They believed that the god Nun was director of the universe, and the oldest of created things. It was he who first originated the potter's art and molded the human race on his wheel. There are no traces of ancient Hebrew pottery, but occasionally one comes across a dingy looking piece of terra cotta in some antiquarian shop, which is supposed to be such, but which is a pure and simple fabrication of the clever dealer. The Greeks did much to advance the art, and the prizes given the victors of many of their contests were of lustrous or glazed ware. The name Ceramics or Keramics, is said to be derived from the name Keramus. Keramus was the son of Bacchus and Ariadne, the prototype and protector of the potter's art.

## TRADE CONTINUES GOOD.

All the Potteries are Running Full  
and Have Plenty of  
Orders.

The potteries in all sections of the country are running to their fullest extent and with many of them orders are in advance of the means to readily supply them. The increase in the

price of ware abroad and the scarcity of stock in some places there, is now reflected here in the action of dealers who show much more interest in the supply of their requirements than they have done for many months before. With the continuous increase in consumption which is going on every day and the narrowing means to meet it there can hardly be a doubt that there will be a general shortage before many weeks elapse, and those who placed their requisitions in time have reason to congratulate themselves, as unquestionably all late comers seem to be destined to wait. It looks like as if the coming season and fall will be an exception to presidential campaign years, which have usually been characterized by dullness in the pottery trade, as well as others, and that an unprecedented business will mark the closing year of the century.—China, Glass and Lamps.

## FINE CHINA.

How to Keep Plates Piled Together  
Without Damaging  
Them.

When it is necessary to keep finely decorated china plates piled together get some large sheets of blotting paper and cut from them circles large enough to cover the inside of the plates. Place these between the plates.

If tea and coffee cups are rinsed in cold water before being washed in soapy water they will not become stained. The hot soapsuds act as a mordant on the tannin of the tea or coffee and so fixes the stain on the china.—April Ladies' Home Journal.

## A NEW GAS BURNER.

Phil Morley Has Invented One And  
It Is Being Used at the  
Dresden.

The Dresden Pottery company are placing gas in all the kilns at the Pool. The gas has already been placed in a number of them, and a kiln has just been drawn that was fired with a new patent burner, the invention of Philip Morley, superintendent of city water works. The ware was fired, as well as it could have been with coal. The company intends to experiment further before placing the burners in the remainder of the kilns.—Commoner and Glass-worker.

George Millward, glost kilnhand at the Standard, will be the new bench boss at Burfords.

Morris Bros., once of Wheeling, are trying to establish a pottery at Golden, Col. They have formed the Morris Pottery company, of Denver.

The printers' and transferers' union will hold another social session soon.

New glost kiln at the Salem pottery will be completed next week.

George Turner has left the Peoria pottery and gone back to Akron.

Peck Hester has quit the Steubenville pottery and is now at work in this city.

The Ohio China company, East Palestine, will build two new decorating kilns.

Percy Albright, the well known potter of this city, will play short stop for the East Palestine ball team this year.

The East Palestine potteries report very good business.

The railroad company will build a new siding at Sebring in order that 500 car loads of building material to be used at the new pottery may be placed upon the ground where it is needed. When the pottery is completed ware will be loaded from the packing shed into the cars at the door.

### The Parson and the Rooster.

A good rooster story comes from a Somerset county correspondent. A certain clergyman, whom we will call Rev. Mr. Little, gave one of his parishioners a rooster, as a slight token of esteem. In the family was a bright 4-year-old boy, and he always called the rooster "Brother Little." One morning the little fellow saw the rooster coming toward the house, and he shouted, "Grandma, here comes Brother Little."

Grandma never stopped to look out or make any inquiries, but started quickly to pick up and set things to rights about the room. This done, she asked the boy, "Where is Brother Little?"

"Just gone into the stable," replied the boy.

Grandma thought she might have time to change her dress and quickly dodged into another room and in a very short time appeared attired in another gown, but somewhat out of breath. Again she asked the boy if he had seen Brother Little.

"Yes," said the innocent child; "there he goes back to the barn with the rest of the hens."

Grandma did not say a word, but sat down for a few minutes to rest, and later she seemed to enjoy the joke with her grandson, who looked on wonderingly as though he only partly took in the situation.—Bangor Whig and Courier.

### ELASTIC APPOINTMENTS.

Original Way in Which an M. C.  
Pleases His Constituents.

A noted M. C., familiarly known as Joe, is one of the thriftiest men in congress, and the patronage at his disposal is made to do effective work in his home district. Not long ago he requested of a certain chief in the interior department an appointment as laborer for one of his constituents. The request was promptly complied with, but, much to the surprise of the chief, as promptly declined. The member was sent for.

"What does this mean?" demanded the official. "The man you were so urgent to have named as a laborer declines the position."

"Yes, I know," replied the M. C. "I advised him to."

"You advised him to," echoed the chief. "What was the matter? I gave you exactly what you asked for, didn't I?"

"Yes," responded Joe. "I have no fault to find with the appointment. The case is like this: My constituents follow me down to Washington hoping to get soft berths in the government service. There are a dozen here now and not places enough to go around. I secure the appointment for one, he asks my advice, and I tell him to decline; his job at home is better, so he goes back satisfied. I appoint another. He declines at my advice, but he has been paid, he is flattered and content, and so on through the list. You see, a man learns a thing or two after 20 years in Washington, and I have learned to make one appointment do for a dozen supporters."—Saturday Evening Post.

### Holding the Ladder.

A workman in Cooper Institute, having occasion to ascend a ladder to do some repairing in one of the public rooms, called to an old man whom he happened to see standing by watching him. "Here, old fellow, hold the ladder for me, won't you?" The "old fellow" started forward and held the ladder for the workman while he climbed up and did his work.

"That unpretentious and willing old man," says The Independent, "was Peter Cooper." It was just like him. Peter Cooper's aim in life and in the beneficent institution founded by him might well be characterized by the words "holding the ladder." Thousands of rightly ambitious men and women owe the possibility of their advancement to Peter Cooper. He has held, and still holds, the ladder, and hundreds upon hundreds of successful and grateful climbers as they rise bless his memory. We cannot all build such piles as Cooper Union, but we can hold the ladder somewhere, somehow, for somebody.

## AGAIN, I'M A DEMOCRAT!

Dewey "Wanted" to Vote For Cleveland.

NEVER HAS CAST A BALLOT.

Admiral Declared He Would Soon Issue a Statement—Said to Have Conferred With Certain Men, While in Philadelphia—Silent as to Plans.

WASHINGTON, April 7.—Admiral and Mrs. Dewey, on their return here, expressed themselves as greatly pleased with their reception. A number of reporters were at the house awaiting his return. In response to a question, the admiral said that he expected in a few days to have ready for the press the statement as to his plans for the future, which he indicated his intention to make.

"Can you confirm the statement you are credited with making that you are a Democrat?" persisted one of the reporters.

"Certainly I am a Democrat," he replied. "I always have been a Democrat," he added smilingly.

"Have you ever voted the Democratic ticket?"

"No, I never voted in my life. The only man I ever wanted to vote for was Mr. Cleveland."

"It is said that Mr. Cleveland wants you to run on a straight gold Democratic platform."

"Good night," answered the admiral, without answering the question, and retiring.

Monday next the admiral and Mrs. Dewey will move into their country house at Beauvoir, which they have taken for the summer.

PHILADELPHIA, April 7.—It was gleaned from what is considered a reliable source that Admiral Dewey had a two hours' conference, while here, with three men who came from New York. Who these men are cannot be learned. The informant, in response to questions, said the admiral's conferees were neither Grover Cleveland, W. C. Whitney nor David B. Hill. The men, it was further stated, immediately returned to New York. As to the nature of the conference nothing could be learned, but it was believed to have a close relation to Admiral Dewey's candidacy for the presidency.

While on the way from the hotel to join Mrs. Dewey on the train, a reporter asked Mr. Dewey whether he had any visitors besides Captain Brownson, and the admiral replied:

"I left orders at the hotel office that I would see no one."

"But did you see any one?"

"The orders I gave were explicit."

This was the only answer the admiral would give.

"It has been stated that if McKinley and Bryan are nominated you will run independently, is that true?"

"I have never said so."

"Admiral, how do you feel about the way the people of this country have received your announcement?"

"Well," he replied, "one must expect a great many things to be said of a man who has taken such a step."

"Then you are not at all discouraged?"

"No, sir, I am not discouraged."

WHITNEY NOT BACK OF DEWEY.

He Thinks the Hero of Manila Did It Himself.

NEW YORK, April 7.—William C. Whitney said that all statements suggesting that he has had anything to do with the candidacy of Admiral Dewey for the presidency are without foundation. He said in part:

"I believe it to be the act of the admiral himself. His nature is simple and straightforward, and he has doubtless been solicited to become a candidate by thousands of people who would like to see him president. I imagine that if you get at the real truth you will find that to be the reason of his announcement."

DISCUSSED DEWEY'S CANDIDACY.

One of the Subjects Up For Discussion by the Cabinet.

WASHINGTON, April 7.—The cabinet meeting was largely occupied with the instructions to be given to the Philippine commission. These instructions have not yet been completed, but it is expected they will be ready in time to reach the commission at San Francisco before their sailing day, the 15th inst.

The question of the appointment of a successor to Assistant Secretary Webster Davis was discussed briefly, as was the candidacy of Admiral Dewey.

Fatal Fight Over Dewey.

CHICAGO, April 7.—One man was killed and another badly hurt in a fight here growing out of an argument over

Admiral Dewey's candidacy for president. Eugene Tucker, a colored man, was shot and instantly killed by George Miller, a barber. The latter was badly cut about the throat with a razor and may die.

## THE FAILURES ANALYZED.

Dun's Review Considers More of the First Quarter—Features of Trade Treated.

NEW YORK, April 7.—R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

Only twice in 25 years would such failures as those of the first quarter of 1900 have seemed large. They are large compared with last year and 1898, and would have looked larger in 1888. The amount of liabilities, \$56,667,055, includes \$21,161,000 for the United States Flour Milling company and \$2,490,482 for 16 banks and other financial corporations, leaving 2,894 commercial failures, with \$33,022,572 liabilities. Actual defaults in manufacturing are smaller than in the first quarter of any other year except 1899 since classified failures began, as are trading liabilities.

Quarterly reviews today show that, outside the immediate effects of stock speculation and industrial consolidations, the volume of business has been larger this year than a year ago.

A little increase in foreign exports of wheat from Atlantic ports, flour included, 2,268,622 bushels against 2,074,769 last year, served as occasion for a little rise, but the gain was lost later, and the week closes unchanged. Pacific exports were 1,025,125 bushels against 392,876 last year. Corn exports, 3,695,915 bushels, against 3,412,480 last year, for the week showed not much greater gain, while receipts were over 1,000,000 bushels larger than last year, but the price rose 1½ cents. While supplies remaining are comparatively small, slight changes in movement affect prices much.

Business in woollens is also somewhat unsatisfactory, with cancellations comparatively numerous, and orders smaller than were expected. The sinking in prices of wool continues, from ½ cent to 1 cent more having been conceded this week at three chief markets have been only 3,933,600 pounds, and the absence of manufacturers from dealings still has its natural effect.

The steel sheet consolidation, with President McMurtry of the Apollo works, at the head, promises great importance. If this, the tinplate, hoop and National Steel works make alliance with the Carnegie company, as is reported, the whole industry will sooner or later be affected.

For the present no change appears in the prices of pig, and only slightly more yielding in plates and bars to secure more business. But many new contracts are reported, including one purchase of rails for export, and the situation is generally more hopeful. The output of coke continues much the largest ever known.

Failures for the week were 159 in the United States, against 141 last year, and 29 in Canada, against 17 last year.

## A DAY IN WALL STREET.

Individuals Were Strong and the Railroads Generally Were Heavy.

The Bond Market.

NEW YORK, April 7.—Speculation in the industrials and the railroad stocks showed a distinct dividing line Friday. Both departments were extremely irregular, but generally speaking, the industrials were strong and the railroads were heavy. The sagging tendency of the railroads seemed to be due for the most part to selling to take profits.

There was a decrease in activity in the bond market and prices yielded at some points. Some issues were well taken at advancing prices. Total sales, par value, \$2,783,000. United States refunding 2s when issued declined ½ and the 3s registered advanced ¼ in the bid price.

Lehigh Laboratory Burned.

BETHLEHEM, Pa., April 7.—The physical laboratory of Lehigh university, one of the largest and best equipped in the country, was burned to the ground and all its scientific apparatus destroyed. The building was a four-story stone structure erected in 1893 at a cost of \$150,000. The apparatus was valued at \$50,000 and included all modern improvements. There is only \$50,000 insurance.

Deweys Returned to Washington.

PHILADELPHIA, April 7.—Admiral and Mrs. Dewey, who arrived here to attend the concert in aid of the families of soldiers and sailors killed in the Philippines, returned to Washington on the congressional limited express over the Pennsylvania railroad.

WILMINGTON, O., April 7.—C. Q. Hildebrand was nominated for congress by the Republican convention in the Sixth congressional district, breaking the deadlock.

## DECIDED FOR BECKHAM

He Is Governor, According to Kentucky High Court.

ONLY ONE REPUBLICAN DISSENTS.

The Other Two Judges of Taylor's Party Concur in the Final Conclusion—Republicans Will Appeal to the United States Supreme Court.

FRANKFORT, Ky., April 7.—The court of appeals handed down a decision in the governorship case in favor of the Democrats. The opinion is by six of the judges—four Democrats and two Republicans. One Republican, Durrelle, dissented.

The Republican judges, Burnam and Guffy, gave a separate opinion from the Democratic judges, but which agreed with the Democratic members in its conclusion.

Judge Hobson wrote the opinion of the court. The concurrence of Judges Burnam and Guffy with the four Democratic judges was a surprise generally, but to the Republicans especially, and there is much speculation now as to whether the talked-of appeal to the United States supreme court will be prosecuted.

The opinion holds that the action of the legislature in seating Governor Beckham was final, and that the courts have no power to reverse it; that Governor Taylor exceeded his authority in adjourning the legislature to London, and that the journals of the two houses of the legislature being regular, cannot be impeached.

Ex-Governor W. O. Bradley, chief counsel for Governor Taylor, authorized the statement that an appeal on behalf of Governor Taylor and Lieutenant Governor Marshall be carried to the supreme court of the United States. Mr. Bradley and Judge W. H. Yost, counsel for the Republican state officers, were in communication with Governor Taylor for several hours this afternoon and the above statement was made at the close of the conference. It is stated that Colonel W. C. P. Breckinridge and Republican leaders from different parts of the state will meet Governor Taylor in conference here today.

## STORY OF THE GOEBEL PLOT.

Follows Lines of Testimony of Wharton Golden, at Powers Hearing.

LOUISVILLE, April 7.—The Courier Journal prints a circumstantial story which purports to give the details of the conception and execution of the plot to kill Senator Goebel. The story is based upon evidence said to have been given to the attorneys for the prosecution by Wharton Golden, W. H. Culton, H. E. Youtsey and others. The story gives the name of the man suspected of having fired the shot that killed Senator Goebel. He is a Clay county feudist. He is supposed to be in the mountains, and has not been arrested.

The story follows the evidence given by Golden in the preliminary trial of Caleb Powers, as to the bringing to Frankfort of the armed mountain feudists. The men implicated in the conspiracy are the same who were implicated by Golden's testimony, several of whom are now under arrest, while others are either in the mountains or in neighboring states. The story follows Golden's testimony as to the plan to cause a riot in the legislature during which Democratic members were to have been killed, tells how the alleged plan to kill Senator Goebel was carried out, of the purchase of a well-known Cincinnati house of 25 steel bullets, smokeless powder cartridges, the procuring of a 38-caliber rifle with which the shooting is said to have been done, the weapon being returned an hour afterward, and the payment of \$1,600 in advance to the man who did the shooting. After the shooting, the man who did the work is said to have been escorted to the mountains by a number of armed men.

Bogus Captain Clark Sentenced.

NEW ORLEANS, April 6.—Julius Moyse, alias Captain Clark, who, during Mardi Gras week, married Miss Bertha Warnken under the false representation that he was the commander of the battleship Texas, then in port, and who was convicted Wednesday on the charge of impersonating a United States officer and with having obtained money under false pretenses, was sentenced to three years' imprisonment.

Their Insurance Void.

COLUMBUS, April 7.—H. A. Lannan & Co., whose factory at the penitentiary was burned several days ago, have \$20,612 insurance with companies not licensed to do business in Ohio. The state insurance commissioner gave notice that he would promptly cause the arrest of any person coming into the state to adjust the losses for these companies.

### Congressional.

They're holding a caucus in the county of Stark, and the outlook at present is for a gay lark; Will Taylor win out, or Mr. Baker, C. C., Can any one tell what the harvest will be?

PEGEE COOLEY,

Today is little pay.

John McKenzie is thinking of moving to East Liverpool.—Cumberland Courier.

George C. Potter, who has been very ill at his home on Avondale street, is recovering.

Mrs. J. C. Allison, of Fourth street, who has been very ill with typhoid fever, is improving.

The Sunday boats, Keystone State, Ben Hur and Kanawha, are expected up tomorrow on scheduled time.

The new rails and switches for the siding to be constructed on the old Metsch property have been delivered.

The Cleveland & Pittsburg pay car will distribute the March wages to the employees about this city Monday.

The street force are today repairing the gutters on Calcutta road forced up by the frost during the winter.

Miss Myrtle Moore, of Trentvale street, entertained a number of her young friends Thursday night in honor of her eighth birthday.

William C. Kennedy and P. J. McCloskey, who have been in Cleveland for the past few days attending court, returned to the city last evening.

George Snape left yesterday for New York, whence he will sail today for England to be gone six weeks. Most of his visit will be spent at Stoke.

Mr. Comstock, traveling passenger agent of the Pittsburg, Bessemer & Lake Erie road, was in the city yesterday. He was booking picnics to Conneaut Lake.

The East Palestine pottery will build a two-story addition, which will give them 5,000 square feet more floor space. One biscuit and two decorating kilns will be added.

Thomas M. Blackmore left at noon for Georgetown, where he this afternoon attended the funeral services of Mrs. Rachel Dawson. Interment was made in the Georgetown cemetery.

W. C. Browne, who has been traveling through the west in the interest of the Dresden pottery, returned to the city today. He reports having a good trip and trade excellent everywhere.

General John Littell and daughter, Mrs. Dora White, of Darlington, who have been spending a few days at the home of Mr. and Mrs. R. L. McKenty, of College street, returned to their home today.

Rev. J. W. Gorrell, pastor of the Christian church, arrived in the city at noon from his former home at New Philadelphia. He will remain here for several weeks, and will move his family to this city as soon as he can secure a house.

## CENSUS OF LIVE STOCK.

Director Merriam Even Wants the Number in Cities and Villages Reported to Him.

WASHINGTON, April 7.—The new law of congress which permits the director of the census to enumerate all the live stock found in cities, villages, lumber and mining camps and elsewhere off the farm and range, promises to provide, for the first time, an adequate basis for estimating the supply of stock on hand at a given time, the probable natural increase in that supply under normal conditions and the probable condition of future markets.

In reports to the agricultural department swine, goats, asses and burros are omitted. Of course, the live stock to be found in cities and villages are also omitted, because never enumerated; but all will be comprehended in the twelfth census returns, which will swell the total wealth represented in this class of property to perhaps \$3,000,000,000—an amount so stupendous that Director Merriam feels he was fully warranted in making extra preparations, not only for a complete enumeration, but an adequate classification of domestic animals.

The age classification will show the number of calves, lambs, colts and mule colts, under 1 year old; heifers, 1 and 2; steers, 1, 2, 3 and over; "cows kept for milk," 2 and over; "cows and heifers not kept for milk," 2 and over; bulls, 1 and over; rams and wethers, 1 and over; horses and mules, 1, 2 and over; ewes, 1 and over; goats, swine, asses and burros, "all ages."

Director Merriam hopes every stockman will exert himself to return his live stock with perfect accuracy, so that the twelfth census of domestic animals will be entirely satisfactory.

### SPOKE IN FAVOR OF QUAY.

Senator Sullivan Advocates the Seating of Governor Stone's Appointee.

WASHINGTON, April 7.—In the senate Mr. Sullivan made an address in support of M. S. Quay's claim to a seat in the senate as a senator from Pennsylvania. He maintained that both as a matter of policy and as a matter of justice to the state, the governor should be conceded and should exercise the authority to name the senator in the event that the legislature for any reason should fail to elect. For these reasons, he declared his intention of voting for the seating of Mr. Quay.

When the reading clerk of the senate had reached that part of the minutes of the day before which related to the presentation of the credentials of the Hon. J. C. S. Blackburn as a senator from Kentucky, Mr. Deboe, of Kentucky, said:

"I was not aware that these credentials were presented. I want to know now if they are a subject of reference. If so, I desire to have them referred to the committee on privileges and elections."

"I suppose," suggested Mr. Jones, of Arkansas, "that the senator (Deboe) will have no objection to the motion going over."

Mr. Deboe withdrew the motion for the present.

### HAWAIIAN BILL PASSED.

Substitute For Senate Measure Went Through In the House.

WASHINGTON, April 7.—The house, after four days' debate, passed the substitute for the senate bill providing for a territorial form of government for Hawaii. The bill now goes to conference.

The most interesting feature of the day's proceedings was the attempt of Mr. Hill (Conn.) to secure the adoption of two amendments, one providing for a resident commissioner instead of a delegate in congress, and the other declaring that nothing in the act should be interpreted as a pledge of statehood. Both were overwhelmingly defeated.

### Democratic Campaign Committee.

WASHINGTON, April 7.—The Democratic congressional campaign committee have chosen Representatives McKee, of Arkansas, and Norton, of Ohio, vice chairmen, and the following executive committee: Senator Cockrell, of Missouri; Representatives Hall, of Pennsylvania; Rapert, of New York; Wheeler, of Kentucky; Daly, of New Jersey; Fitzgerald, of Massachusetts, and Denny, of Maryland.

### Trouble With Strikers Feared.

BRIDGEPORT, Conn., April 7.—High Sheriff Hawley, of Fairfield county, has gone with a posse of 25 deputies to Greenwich, having been summoned there by the town authorities, who declare themselves unable to cope with the strikers of the building trades.

### Bonner Threw Up Sponge.

NEW YORK, April 7.—In a bout with Tommy West, of Brooklyn, the seconds of Jack Bonner, of Summit Hill, Pa., threw up the sponge in the sixteenth round, stating that Bonner was ill.

## EPWORTH LEAGUE.

Topic For the Week Beginning April 8, "Christ Our Missionary Model"—Text, John iv, 5-15.

"Give Me to drink?"

It was not a demand, but a request. Jesus was tired and thirsty. He was sitting by the side of the well dug ages before by Jacob near Shechem. He was resting after the long forenoon's walk, while His disciples went into the village a mile away to buy provisions. The well had no bucket. In the east each person brings his own rope and carries it away when he goes. Jesus had no means of drawing water, and the well was deep. A woman of the neighborhood came to draw water. No common Jew would have spoken to her, much less have consented to drink from her pitcher or be in any way under obligation to her, however thirsty he might be. She was a Samaritan, and that meant to a Jew all that a person ought not to be, morally and religiously. Besides, it was not difficult for a practiced eye to see that she was not a woman of pure character. About as hopeless a case for missionary effort as could well be found. Most people would have let her alone.

What did Jesus do?

First of all, He felt sorry for her. Of course He must in mind have condemned her manner of life. Who can measure the recoil of His pure nature from her impurity? But no word or look showed anything of disgust or contempt. He held no argument about the right or wrong of her ways. He pitied her and was eager to show her a better life. Tired, hungry and thirsty, He was more hungry in soul to help her than to drink or eat Himself.

He got her to help Him.

He made no offer to help her. It would have been sharply refused. He asked a favor of her. "Will you give me a drink? What a question! A Jew ask drink of a Samaritan, and of a woman at that! What could it mean? How could He do it? In her astonishment she asks Him to explain His action. He has gained His point. Her curiosity is aroused. Her mind is awake; the doors of the soul are open. No prejudice stands in the way of the truth. Easily He leads her, step by step, until she recognizes in Him a Master Spirit who is able to quench soul thirst by His own gift of purity. The good in her is stirred to action, and the power of righteousness overcomes the evil.

Did she give Him water to drink?

Who can tell? She forgot her water pot in her haste to call the men of the city to come and see the prophet. He forgot His hunger in the satisfaction of feeding a needy soul.

"They pressed Him to stay with them." So the gospel makes friends of Jews and Samaritans.

And He staid two days there. Wherever we are needed and can find those willing to receive the message, there should we stop awhile.

How much there is for every Christian worker to learn in this lesson! Jesus' mode of approach to a soul, His delicacy of touch, His courtesy, the resources of tactful earnestness; above all, His unwearied patience and unfailing sympathy, show us the way to win men.

## CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 8.—Comment by Rev. S. H. Doyle.

Topic.—Christ our missionary model.—John iv, 5-15. (Quarterly missionary meeting.)

Going through Samaria as the most direct route on His way from Jerusalem to Galilee, Jesus, weary and worn from His long day's travel, sits down to rest upon the curb of the historic well of Jacob. A poor, degraded, sinful Samaritan woman comes to the well to draw water. Though belonging to a race despised by His own people, Jesus entered into conversation with her and so directed it that He made for Himself an opportunity to offer her the water of life. In this incident, in a strange land, to the member of a despised and sinful people Jesus preached the gospel, thus leaving us an example of the truest and loftiest kind of a missionary spirit and zeal.

1. Christ as a missionary was sent of God. His mission into the world was a divine mission. He came to seek and to save the lost as the business of His Father. From all eternity it was arranged in heaven that Christ should come to the world to offer salvation to the whole world through His life and death. The true missionary or soul winner at home or abroad needs to feel himself called of God. Love for

When winter comes the vital forces of nature are low, and the tree stands like

a solitary monument to the dead summer. In the winter of life, active men experience a similar lowering of vitality. In some the effect is startling.

They loose their grip on life. They seem like monuments of a buried past. At this crisis there is need of a medicine

which will nourish and build up the body, and increase its vital power. Such a medicine is Dr. Pierce's Golden Medical Discovery. It enriches the blood, purifies it, carries off the clogging waste of the system, increases the nutrition of the body, and produces a sound, healthy condition with abundant vital power and physical energy.

David Duggins, Esq., of Jones, Ohio Co., Ky., writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day. It has been six months since I took the medicine and I still have reasonable health. I am willing to have you publish this, and also my former letter, if you wish to, and if it proves to be of benefit to any afflicted person I will feel well repaid."

There is no alcohol or other intoxicant in "Golden Medical Discovery," neither opium or other narcotic drugs.

The dealer who offers a substitute for the "Discovery" is seeking to profit himself, not to help you. Insist on having "Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free, on receipt of stamps to cover cost of mailing only. Send 21 one-cent stamps for edition in paper cover, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

humanity, enthusiasm for men, will not make us willing to endure and sacrifice all that is necessary to save men. The heathen world in its sinfulness and degradation is not lovable. Man is not attractive for his own sake. Back of our efforts must be the inspiration that it is God's will that we should give and pray and labor to save the whole world. God calls us all to be missionaries; not all to go to the foreign field, but all to have some part in the work of sending the gospel to the whole world.

2. Christ, as a missionary, had the true message, Himself, as the water of life. Heathendom, like the Samaritan woman at the well, is thirsting for water—the water of life. The soul of mankind the world over is longing for God. Men are crying out for the living God, and in the efforts to find Him they are bowing down to the creature rather than the Creator, to the workmanship of their own hands. They need Christ to quench this thirst; they need Christ to show them what and where God is and how they may find Him; they need Christ to give them the water of eternal life. This must be our message to a sin cursed and dying world. Philosophy, philanthropy, humanitarianism, cannot satisfy this longing of heathendom. Only Christ can do it.

3. Christ, as a missionary, was successful. He had many difficulties to overcome. There were race difficulties, religious prejudices and social obstacles such as will be found in every mission field. But Christ overcame them all with the simple gospel of Himself as the Messiah and the water of life. Thus by prayer and self denying effort all difficulties in mission work today may be overcome and the world won to Christ.

### THE PRAYER MEETING.

The missionary committee should arrange a special programme, having appropriate hymns and prayers and five five minute addresses or papers on Christ's leading characteristics as a missionary, such as (1) Christ's call, (2) Christ's message, (3) Christ's success, (4) Christ overcoming difficulties and (5) Christ's missionary command to his disciples.

## JOHN PURVIS IS ACQUITTED

Found Not Guilty By New Cumberland Jury of Murder of John Cummings.

## JURY OUT BUT A SHORT TIME

Purvis Left Immediately After His Release This Afternoon For Wellsville.

## THE VERDICT WAS EXPECTED.

New Cumberland, W. Va., April 7.—(Special.)—John Purvis has been acquitted of the murder of John Cummings. The jury which heard the evidence went out at 10:30 o'clock this morning and at noon returned a verdict of not guilty.

Purvis was immediately released from custody and this afternoon will leave for Wellsville. Joe Willis, who is wanted in connection with the case, is still at liberty.

## DISMISSED.

The Case Against John Kountz is Off the Docket—Burgess Is Firm.

The case against John Kountz for disorderly conduct was dismissed last night after hanging fire for several weeks. E. L. Hughes, the other party who was implicated in the fight, is in Pennsylvania and his case will not be heard until he gets back.

Moody Coburn went to sleep yesterday afternoon in Rinehart's livery stable. He was arrested and after being in jail all night was released and will have a hearing tonight.

Sanitary Officer Burgess told the mayor about the dog Officer Wood killed, and the mayor talked to Wood and told him he had better pay the 25 cents and save a clash. Wood hasn't paid it yet, and Burgess asserts that he will push the case. He also says he has notified the street railway company that they must in the future bury all dogs killed by their ears.

## QUEER REPORTS.

Made By Physicians When Reporting Causes of Death to Health Officer Ogden.

Health Officer Charles B. Ogden, while at the city hall last evening, told the story of how some physicians reported deaths. "Indeed," said Dr. Ogden, "within the last year I received reports from two physicians which puzzled me. A report one physician sent me read, 'died from want of breath.' I went to this physician and asked him if he meant to say that and he said his report was correct. Another report I received not long ago read, 'sick since birth.' This case was that of a small child, and to this day I have not found out the cause of death."

## STARK COUNTY VOTING TODAY

Taylor-Baker Fight Now Raging Over In Canton, Alliance and Other Battlegrounds.

## MAHONING IS ALL TORN UP

Two Sets of Delegates to the Convention and Maybe Two Conventions.

## BIG FIGHT IS BREWING THERE.

Canton, April 7.—(Special.)—Stark county Republicans are today holding their congressional primary. The fight is the same as that in Columbiana county March 24, there being but the two candidates, R. W. Taylor and C. C. Baker. Both sides claim a walk-over. There will probably be an average vote out.

Stark county has 108 delegates to the Alliance convention, so that with the 81 already chosen in Columbiana, 189 delegates will be elected when the polls close here this evening. But 126 are necessary to nominate. If Taylor, with 56½ from Columbiana, wins 69½ here today the fight will be over. Baker to win today would need 101½, an apparent impossible calculation, so if Taylor fails to land 69½ in Stark today Mahoning will have to settle it.

## GREAT SCRAP.

PROMISED AT MAHONING COUNTY CONVENTION.

McNab, Norris and Kennedy Struggling for Congressional Delegates at Long Range.

Youngstown, April 7.—(Special.)—The indications now are that Mahoning county will have two sets of delegates to its Republican county convention, which is to nominate its choice for congress, and possibly there may be two county conventions.

James Thomas, candidate for sheriff, backed by Congressional Candidate McNab, has named one set of delegates, and Candidates Norris and Kennedy named another delegation.

The rule in vogue in this county was that the candidate having the highest number of votes for a county nomination should name the delegates to the county convention, which will select the delegates to the congressional convention. Thomas claimed to have received the highest number of votes and the right to name the delegates. His opponents desiring to get control of the county delegates and through them the congressional delegates out of his hands, worked a scheme whereby there was a contest for another office, and their candidate getting the highest number of votes, was to name the county convention delegates. The county executive committee will be called upon to decide whether under the rules Thomas, who was unopposed and consequently received the highest number of votes for his office, shall name the delegates or whether the candidate for the other office, who received the higher number of votes in a contested nomination, shall do so.

## ORGANIZED.

NEW CENTRAL COMMITTEE ELECTED OFFICERS.

George H. Owen Was Re-Elected Chairman to Serve Another Year.

The Republican central committee met last evening at city hall, and the old committee finished up their business and adjourned sine die. The members of the new committee organized by electing George H. Owen chairman. Clerk James N. Hanley positively declined to be re-elected secretary and Joe Betz was chosen. A. W. Thomas was elected treasurer, and was designated as the "War Horse" of the committee. Chairman Owen announced that it would be a long time until the committees would have anything to do, so he would not announce any of his committees until the time for opening the presidential campaign.

## CITY COUNCIL.

Councilman J. T. Smith Desires Harmony in Preference to Any Official Position.

There are two aspirants for the position of president of council, Dr. R. J. Marshall, of the Fifth ward, and J. T. Smith, of the Second ward. Either of these gentlemen will, if elected, fill the berth acceptably to the people. Both are brainy business men, and either one will no doubt do everything in his power to show the people that his fellow members acted wisely and well in their selection of a presiding officer.

J. T. Smith was interviewed this afternoon, and while he would gladly accept the honor if conferred upon him by his fellow members he prefers private membership and harmony to office and discord. He further states that certain of his fellow members have asked him, in case he is elected as president, that they should be placed upon certain committees and he made response that he had no objection, but so far as any definite promise is concerned he stands absolutely free and untrammelled, as no other course would be wise or just or right in the presiding officer of any organization, especially in such an important berth as president of the city council, where vital interests are at stake, and where any other course might work serious injury and injustice to the citizens at large.

## Veteran Dead.

Thomas Johnson, of Beaver Falls, died at that place this morning. The funeral will take place Monday afternoon at 2 o'clock. Deceased was an old veteran with a splendid record. Perry Johnson, well known here, is a brother of the deceased. There are many friends and relatives of both in East Liverpool. Thomas Johnson was a cousin of Mrs. J. D. West.

## Girl Mysteriously Killed.

Ohio—Showers today or tonight, with warmer in eastern portion; probably showers tomorrow; brisk southerly winds, becoming variable.

West Virginia—Rain this afternoon or tonight; rain Sunday; westerly winds.

## W. W. TRUSTEES FINISH THE YEAR

By Granting a Number of Petitions For New Water Mains.

## THE NEW BOARD ORGANIZED

By Electing W. L. Smith President and Jacob Shenkel Vice-President.

## NEW MAIN FOR FOURTH STREET

The water works trustees met last night and paid a number of bills. A petition was received from the residents of McKinnon's addition asking that a main be laid along McKinnon street. The petition was received and ordered filed. A petition from residents of Helana asked that 350 feet of pipe be laid in an alley in that section of the city. The petition was granted. Kossuth street residents wanted a four inch main from Walnut street to College street. Their request was granted. This finished the business of the old board, and they adjourned sine die.

The new board met at once and organized by electing the following officers:

President, W. L. Smith; vice president, Jacob Shenkel; Superintendent, Phil Morley; assistant superintendent, Edward Cox; secretary, J. W. Gipner. Superintendent Morley stated that council proposed to have Fourth street paved this year, and that the four inch main on the street was badly corroded and did not furnish ample fire protection. He recommended that a six inch main be laid on the street before it was paved. He was instructed to measure up the distance and estimate the cost of the improvement and report at a special meeting to be held at his call.

Much interest is being taken in the series of special meetings that will be held in the Second Presbyterian church next week. The meetings will commence on Monday evening and continue until and including the following Sunday.

Street Foreman John Spence, of Pennsylvania avenue, who has been ill with grip for the past week, was able to be out yesterday.

A number of young men from the suburb went over to Chester yesterday afternoon to watch the steam shovel work on the upper end of the Mark's farm. They crossed the river above Babb's island.

The sewer in Pennsylvania avenue that has been broken for several days was repaired yesterday afternoon.

Don Mowen, of Mulberry street, who has been spending the past few days at his former home at Deerfield, near Alliance, will return to his home this evening.

Mrs. George McKinnon, who has been ill with asthma for a week, is recovering.

The Junior Christian union, of the Second United Presbyterian church, were pleasantly entertained at the home of Rev. J. R. Greene Thursday evening. About 70 children were present.

Mrs. Donovan, of River avenue, who has been ill for some time, is improving rapidly.

The street car track east of Ralston crossing is being repaired. The road bed is also being repaired.

### WELSBACH LIGHTS.

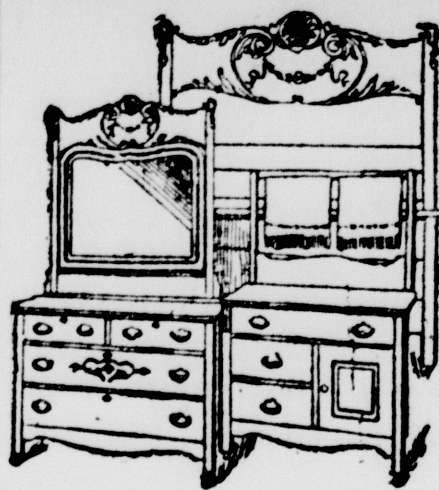

News Review Readers Will Be Interested in the Following Statement.

The Welsbach light has become very popular, and justly so. In this section. It is a great gas saver, and at the same time gives a very soft and mellow light, proving a source of great gratification to students and readers, and indeed to patrons and users in general. Calling at the Ohio Valley Gas company's office this morning on a business mission, we had the pleasure of an introduction to Mr. Chas. J. Beardsley, agent for the Welsbach department. Mr. Beardsley will be located with us permanently, and he will take your orders for lamps and give all information required respecting the same. You will find Mr. Beardsley on duty at the office of the Ohio Valley Gas company.

### MRS. SCOTT.

A Pioneer Resident of the City Died Thursday Afternoon—Funeral Tomorrow.

Mrs. Mahalah Scott, aged 76 years, died Thursday afternoon at her home, 223 Peach alley, after an extended illness from a complication of diseases. Mrs. Scott was one of the pioneer settlers of the city, having located here when but a few houses comprised the town. She was held in highest esteem by all who knew her, and had been a life long member of the Presbyterian church. She leaves two daughters, Mrs. James G. Cowan and Mrs. Mary E. Hinkle, and two granddaughters, Mrs. Arthur Bloor and Miss Allie Scott, and a host of friends to mourn her loss. The funeral will take place Sunday afternoon at 2 o'clock from her late home. Interment at Riverview.

THE NEWS REVIEW

## WINE OF CARDUI

**Woman's—Crowning Virtue.**

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

**Wine of Cardui**

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

## PULLMAN PARLOR CARS.

Improving the Train Service to Pitts-  
burg and Cleveland via Penn-  
sylvania Lines.

New Pullman parlor cars have taken  
the place of the parlor cars running  
on trains Nos. 337 and 338, between  
Pittsburg and Cleveland over the  
Pennsylvania lines. The new cars are  
the latest pattern turned out by the  
Pullman company and are finished  
and furnished in a substantial man-  
ner. They have roomy and comfort-  
able revolving arm chairs, wide plate  
glass windows, commodious smoking  
apartment and a large retiring room  
for ladies. This room is fitted up with  
dresser and plate glass mirror. The  
new cars leave East Liverpool for  
Cleveland at 2:49 p. m. and for Pitts-  
burg at 7:04 p. m., central time, week  
days.

## ESTATES IN COURT.

Probate Court at Lisbon Busy Adjust-  
ing Affairs of the  
Dead.

Lisbon, April 7.—(Special.)—James  
Charters, as executor of Elizabeth  
Mather's estate, was today authorized  
to sell personal property at private  
sale within two months.

The will in the estate of Susanna  
Hudson, late of Fairfield township,  
was filed for probate and a commis-  
sion issued to take testimony of sub-  
scribing witnesses.

In the estate of Cynthia Bradshaw,  
late of East Liverpool, an order of  
private sale was issued for personal  
property.

Milton Behner filed an application  
to be released from the bond of C. A.  
Guthrie, guardian of Elizabeth Nogle.

#### Understands His Business.

Mr. George D. Winnie, now in our  
city, representing the American Reg-  
istry company, is a courteous, clever  
gentleman and man of the world. He  
is a fluent conversationalist and  
clenches his arguments in a manner  
which prevents successful contradic-  
tion. It is a genuine pleasure to listen  
to him. He represents good features  
in accident policies, and will convince  
you of the fact when you give him  
the opportunity. We know. He con-  
vinced us against our will.

#### Salineville Graduates.

Salineville's high school will grad-  
uate a class of seven, composed of  
Misses Isabel Strabley, Mary Maloney,  
May Hays, Maude McGillivray and  
Messrs. Harry Dallas, Firman Dor-  
rance and John McIntosh.

#### COMMON PROPERTY.

Public Praise is Public Property—East  
Liverpool People May Profit  
by Local Experience.

Grateful people will talk.  
Tell their experience for the public  
good.

East Liverpool people praise Doan's  
Kidney Pills.

Kidney sufferers appreciate this.  
They find relief for every kidney ill.  
Read what this citizen says:

Mr. Jacob Schenke, tonsorial artist,  
whose parlor is at 138 Sixth street,  
says: "I had for several years a  
weak back and kidneys, severe pains  
across the loins around through my  
thighs, at times so bad that it was im-  
possible for me to get out of bed,  
cramps through my limbs and frequent  
attacks of dizziness. It was probably  
the result of a neglected cold. Be-  
that as it may, I suffered with the at-  
tacks. I was recommended to try  
Doan's Kidney Pills, and procured a  
box at the W. & W. pharmacy. They  
so thoroughly removed my trouble and  
so acted as a general tonic that I have  
had no bother after the treatment and  
could not feel better."

For sale by all dealers. Price 50  
cents per box. Foster-Milburn Co.,  
Buffalo, N. Y., sole agents for the  
United States.

Remember the name—Doan's—and  
take no other.

# Elijah W. Hill, REAL ESTATE DEALER, 105 Sixth Street,

Will remove to floor above present office on  
or about April 1st. Entrance 105½ Sixth

## Dreams of the Maimed.

M. de Manacine, the Russian psychol-  
ogist, mentions the case of a person  
born without arms or feet who always  
dreamed that he had been mutilated.  
Now, it should be borne in mind, he  
says, that the majority of persons born  
without arms or feet always dream  
that they possess these extremities. It  
is evident, he maintains, that this dif-  
ference results, in the first instance,  
from weak impressions hereditarily  
transmitted, and in the second instance  
from the strength and precision of  
these impressions. Persons whose  
limbs have been amputated are subject  
to curious delusions while asleep. They  
never dream that they are walking on  
crutches; quite the contrary, they in-  
variably dream that they are walking  
with their feet, with this difference  
only—that as time passes their extre-  
mities appear to become shorter and  
shorter.

M. de Manacine mentions as a curi-  
ous fact that this hallucination is very  
pronounced when the wound has healed  
without complications; while on the  
other hand there is no hallucination  
when the process of cicatrization has  
been painful. Moreover, we find the  
reason of this difference in the greater  
or lesser intensity of the sensations ex-  
perienced. Still, if the dreams of ab-  
normally formed persons are charac-  
terized by certain peculiarities, they  
are none the less subjected, as are other  
dreams, to the mysterious conditions of  
the human organism, and, like other  
dreams, their repercussion on the  
wakeful state is identical.

## Cautious Procedure.

"Colonel, if you called a man a liar,  
you would surely expect a fight, would  
you not?" asked the stranger from the  
north.

"No, sah," replied the colonel. "We  
don't call a man a liar down here until  
we have shot him fust, sah, so full of  
holes that there is no fight in him, sah."  
—Indianapolis Press.

against the girls, but when one gets  
married nowadays it doesn't seem to  
make any more housework for the  
mother than she had before her daugh-  
ter's departure.—Atchison Globe.

## COMING ATTRACTIONS.

### "A Hot Old Time."

The success of "A Hot Old Time,"  
which comes to the Grand on Tues-  
day evening, is of a substantial sort  
that admits of no argument. The  
play is now in its third season and  
it has steadily grown in favor since  
its original production at the Star  
theater, New York. The fact that it  
has invariably played to increased re-  
ceipts on return engagements is con-  
clusive evidence that it is well worth  
seeing.

### "A Black Sheep."

All the hilarity and jovial ceremon-  
ies which attend the presentation  
here of anything new from the pen of  
the clever and most popular play-  
right, Charles Hoyt, will come into  
evidence next Thursday evening at  
the Grand, when "A Black Sheep," his  
most successful and funniest work,  
will be the attraction.

### Rentz-Santley Burlesque.

Those famous duettists, the Misses  
Personi and Romaine, are one of the  
many attractions with the Rentz-  
Santley Burlesque company, who play  
an engagement at the Grand opera  
house next Wednesday night, April  
11, when they will present their latest  
terpsichorean successes. What these  
little dashing danseuses do not  
know about the art of extracting  
music with the feet is not worth learn-  
ing, and their sweet voices lend a  
pleasing accompaniment to the patter  
of their tiny feet.

### An Overcautious Wife.

An incident occurred at the redem-  
tion bureau of the treasury which  
ought to be a warning to wives. A  
woman in New England placed \$48 in  
bank bills in the oven of the kitchen  
stove in order to hide it from her hus-  
band. She forgot to take it out, and in  
the morning he kindled a hot fire and  
reduced the money to a crisp before  
his wife remembered where it was.  
She picked up the ashes, enough to  
half fill a wineglass, put them in a lit-  
tle box and sent them down to Wash-  
ington to be redeemed. The experts,  
by the use of magnifying glasses, iden-  
tified the bills to the amount of \$36  
and sent her that money, but it cost  
her \$12 to fool her husband, and she  
will probably not try it again.

# BOARD OF HEALTH ANNUAL REPORT

Health Officer Ogden's Yearly Re-  
view Presented to the Board  
Last Night.

## 433 BIRTHS AND 180 DEATHS

More Males Were Born and More  
Males Died Than Females Dur-  
ing the Past Year.

## MARCH HAD 16 TYPHOID CASES.

The last meeting of the old board  
of health was to have been held at  
city hall last evening, but only two  
members, Messrs. Chambers and  
Haines, and Clerk Ferran were pres-  
ent. The new board will be organized  
at the next meeting.

The health officer's report for the  
month of March was as follows:  
Births, males 22, females 12; deaths,  
males 5, females 8; causes of death,  
meningitis 5, pneumonia 2, consump-  
tion 2, tumor of brain 1, cancer 1,  
blood poison 1, brain fever 1. During  
the month 16 cases of typhoid fever  
and one case of diphtheria were re-  
ported.

The sanitary officer during the  
month ordered seven vaults cleaned  
and buried 14 dogs and cats killed.

The annual report of Health Officer  
Charles B. Ogden was as follows:

The health of the city has been  
good during the past year, and is at  
present in an excellent state. The  
largest number of deaths from one  
disease was caused by pneumonia,  
which claimed 23 people. Typhoid fe-  
ver caused the death of 17 cases, and  
14 cases of consumption have proved  
fatal.

The number of deaths from all dis-  
eases was 180, being about 10 in 1,000  
of the population, estimated at 18,000.

The number of births exceeded the  
number of deaths by 253. Two hun-  
dred and thirty-one boys and 202 girls  
were added to the population of the  
city within the time covered by the  
report.

The persistent continuance of ty-  
phoid fever in this city can fairly be  
ascribed to the impure water gener-  
ally used, and we hope the improve-  
ments now being made by the city  
water works trustees will, in the  
near future materially assist in re-  
ducing the number of cases of this  
form of disease.

Out of 22 cases of diphtheria only  
one proved fatal; out of 40 cases of  
scarlet fever none were fatal, and  
out of 134 cases of typhoid fever only  
17 resulted in death. All houses  
where infectious diseases have been  
were properly placarded and thor-  
oughly fumigated in compliance with  
law.

## Sanitary Conditions.

The excellent sanitary condition of  
the public school buildings, which  
have all been visited and examined  
by the health officer, is deserving of  
praise, and denotes good work and  
close attention to details on the part  
of those having the buildings in  
charge.

We note with feelings of pleasure  
that the sewer in district No. 2 will  
soon be under construction, and hope  
that this branch of the public improve-  
ment may be pushed to completion as  
soon as possible.

We again urgently and respect-  
fully call your attention to the filthy  
condition of the alleys in the cen-  
tral part of the city, and suggest that  
they be paved with brick, as it is  
very difficult to clear away the refuse  
matter which is thrown into them,  
and which stuff creates a stench dur-  
ing the warm season that cries aloud  
for removal.

## One Swallow

## SEVERAL PLANTS SHORT OF WARE

Unusually Heavy Trade During  
the Holidays Is What  
Did It.

### THERE WAS MUCH SICKNESS

Among the Workmen and the Pot-  
teries Have Had No Time to  
Stock Up.

### DRESDEN'S NEW GAS BURNER.

Nearly every pottery in the city is at present experiencing a shortage of ware. This is caused by the unusually heavy trade during the holidays and the fact that there has been much sickness among the workmen. The potteries will not be able to catch up until orders fall off considerably and they can stock up. Another reason for the shortage is the fact that trade on shapes is continually shifting, and as soon as the potteries get a good line of one shape on hand trade leaves that shape and goes to another. It is almost impossible to keep up assortments, and the principal shortage is on cups. An illustration of how busy the potteries are is in the fact that a few days ago a party went to one of the potteries and wanted an underglazed dinner set. It was a special order and ordinarily would only take four or five days to get it out. The pottery would not promise to deliver that dinner set until July.

### CERAMICS.

#### SEVERAL POINTS IN THE HISTORY OF POTTERY.

Pottery Was Used By the Babylonians  
and Assyrians for Their  
Public Archives.

The use of pottery dates far back into antiquity. The Assyrians and the Babylonians made use of it for their public archives, historical annals, astronomical calculations and the like, these things being imprinted on soft clay tablets, cylinders and hexagonal prisms, which were afterward hardened by baking. The Egyptians attributed the art of pottery to their gods, proof that it was in use before the historical period. They believed that the god Nun was director of the universe, and the oldest of created things. It was he who first originated the potter's art and molded the human race on his wheel. There are no traces of ancient Hebrew pottery, but occasionally one comes across a dingy looking piece of terra cotta in some antiquarian shop, which is supposed to be such, but which is a pure and simple fabrication of the clever dealer. The Greeks did much to advance the art, and the prizes given the victors of many of their contests were of lustrous or glazed ware. The name Ceramics or Keramics, is said to be derived from the name Keramus. Keramus was the son of Bacchus and Ariadne, the prototype and protector of the potter's art.

### TRADE CONTINUES GOOD.

All the Potteries are Running Full  
and Have Plenty of  
Orders.

The potteries in all sections of the country are running to their fullest extent and with many of them orders are in advance of the means to readily supply them. The increase in the

price of ware abroad and the scarcity of stock in some places there, is now reflected here in the action of dealers who show much more interest in the supply of their requirements than they have done for many months before. With the continuous increase in consumption which is going on every day and the narrowing means to meet it there can hardly be a doubt that there will be a general shortage before many weeks elapse, and those who placed their requisitions in time have reason to congratulate themselves, as unquestionably all late comers seem to be destined to wait. It looks like as if the coming season and fall will be an exception to presidential campaign years, which have usually been characterized by dullness in the pottery trade, as well as others, and that an unprecedented business will mark the closing year of the century.—China, Glass and Lamps.

### FINE CHINA.

How to Keep Plates Piled Together  
Without Damaging  
Them.

When it is necessary to keep finely decorated china plates piled together get some large sheets of blotting paper and cut from them circles large enough to cover the inside of the plates. Place these between the plates.

If tea and coffee cups are rinsed in cold water before being washed in soapy water they will not become stained. The hot soapsuds act as a mordant on the tannin of the tea or coffee and so fixes the stain on the china.—April Ladies' Home Journal.

### A NEW GAS BURNER.

Phil Morley Has Invented One And  
It Is Being Used at the  
Dresden.

The Dresden Pottery company are placing gas in all the kilns at the Pool. The gas has already been placed in a number of them, and a kiln has just been drawn that was fired with a new patent burner, the invention of Philip Morley, superintendent of city water works. The ware was fired, as well as it could have been with coal. The company intends to experiment further before placing the burners in the remainder of the kilns.—Commoner and Glassworker.

### LISTS READY.

They Will Be Distributed the Early  
Part of Next  
Week.

The printing of the uniform wage scale has been completed and the lists were delivered to President Hughes today. They will be sent out to the potters of the United States next week and go into effect May 1. The lists are printed in book form.

### NOTES OF THE PLANTS.

Items of Interest About the Plants in  
the United  
States.

S. A. Weller's new pottery plant at Zanesville has started with 25 workmen. The ware manufactured is of the ordinary red quality. Other varieties of ware will be made as soon as the machinery can be placed in position.

The Peoria biscuit kiln hands have been working at night and a kiln was drawn last Sunday.

Jack Burgess, an Akron potter, is now employed at Peoria.

East Palestine is now making a bid for the Brotherhood convention.

Harry Meanor, former policeman of this city, but recently employed at East Palestine, has resigned his position at the pottery at that village.

objected to a new method of settling for work. They were out two days.

The Chittenango (N. Y.) pottery is now operating two kilns, and contemplate building three more.

Kilndrawers at the Greenwood pottery, Trenton, didn't get an increase of wages they struck for this week. George Millward, glost kilnhand at the Standard, will be the new bench boss at Burfords.

Morris Bros., once of Wheeling, are trying to establish a pottery at Golden, Col. They have formed the Morris Pottery company, of Denver.

The printers' and transferers' union will hold another social session soon.

New glost kiln at the Salem pottery will be completed next week.

George Turner has left the Peoria pottery and gone back to Akron.

Peck Hester has quit the Steubenville pottery and is now at work in this city.

The Ohio China company, East Palestine, will build two new decorating kilns.

Percy Albright, the well known potter of this city, will play short stop for the East Palestine ball team this year.

The East Palestine potteries report very good business.

The railroad company will build a new siding at Sebring in order that 500 car loads of building material to be used at the new pottery may be placed upon the ground where it is needed. When the pottery is completed ware will be loaded from the packing shed into the cars at the door.

#### The Parson and the Rooster.

A good rooster story comes from a Somerset county correspondent. A certain clergyman, whom we will call Rev. Mr. Little, gave one of his parishioners a rooster, as a slight token of esteem. In the family was a bright 4-year-old boy, and he always called the rooster "Brother Little." One morning the little fellow saw the rooster coming toward the house, and he shouted, "Grandma, here comes Brother Little."

Grandma never stopped to look out or make any inquiries, but started quickly to pick up and set things to rights about the room. This done, she asked the boy, "Where is Brother Little?"

"Just gone into the stable," replied the boy.

Grandma thought she might have time to change her dress and quickly dodged into another room and in a very short time appeared attired in another gown, but somewhat out of breath. Again she asked the boy if he had seen Brother Little.

"Yes," said the innocent child; "there he goes back to the barn with the rest of the hens."

Grandma did not say a word, but sat down for a few minutes to rest, and later she seemed to enjoy the joke with her grandson, who looked on wonderingly as though he only partly took in the situation.—Bangor Whig and Courier.

No industry except that of cloth manufacture has contributed so much to the comfort and advancement of man as that of glassmaking, which is one of the oldest of technical industries. Its earliest home was Egypt.

A nation's flag represents its sovereignty and is prominently displayed in all army and navy battles. To "strike the flag" is to lower the national colors in token of submission to the opposing forces.

### ELASTIC APPOINTMENTS.

Original Way in Which an M. C.  
Pleases His Constituents.

A noted M. C., familiarly known as Joe, is one of the thriftiest men in congress, and the patronage at his disposal is made to do effective work in his home district. Not long ago he requested of a certain chief in the interior department an appointment as laborer for one of his constituents. The request was promptly complied with, but, much to the surprise of the chief, as promptly declined. The member was sent for.

"What does this mean?" demanded the official. "The man you were so urgent to have named as a laborer declines the position."

"Yes, I know," replied the M. C. "I advised him to."

"You advised him to," echoed the chief. "What was the matter? I gave you exactly what you asked for, didn't I?"

"Yes," responded Joe. "I have no fault to find with the appointment. The case is like this: My constituents follow me down to Washington hoping to get soft berths in the government service. There are a dozen here now and not places enough to go around. I secure the appointment for one, he asks my advice, and I tell him to decline; his job at home is better, so he goes back satisfied. I appoint another. He declines at my advice, but he has been paid, he is flattered and content, and so on through the list. You see, a man learns a thing or two after 20 years in Washington, and I have learned to make one appointment do for a dozen supporters."—Saturday Evening Post.

#### Holding the Ladder.

A workman in Cooper institute, having occasion to ascend a ladder to do some repairing in one of the public rooms, called to an old man whom he happened to see standing by watching him. "Here, old fellow, hold the ladder for me, won't you?" The "old fellow" started forward and held the ladder for the workman while he climbed up and did his work.

"That unpretentious and willing old man," says The Independent, "was Peter Cooper." It was just like him. Peter Cooper's aim in life and in the beneficent institution founded by him might well be characterized by the words "holding the ladder." Thousands of rightly ambitious men and women owe the possibility of their advancement to Peter Cooper. He has held, and still holds, the ladder, and hundreds upon hundreds of successful and grateful climbers as they rise bless his memory. We cannot all build such piles as Cooper Union, but we can hold the ladder somewhere, somehow, for somebody.

# ROBERTS NOT BLAMED

But Recent Disaster Discourages British.

## PRETORIA'S CAPTURE FAR DISTANT

A Member of the Cabinet in Dublin Points Out the Bad Effect the Capture of the British Will Have—Obstacles to Advance Hard to Overcome.

DUBLIN, April 7.—Lord Roberts' dispatch describing the disaster at Reddersburg was printed in Dublin papers and created general consternation. It brought the populace with a quick turn from the rejoicing over the queen's visit to the great issues of the war and cast a sudden gloom over the gaiety of the party at the castle.

A prominent member of the cabinet, now in Dublin, did not attempt to conceal his mortification nor to minimize the evil effect of such reverses upon the prestige of the empire abroad.

He attributed it and others like it of recent occurrence to a lack of horses and to the inability of the remounts sent forward to endure the climate. He appeared to have no hope of an immediate advance in force.

In the cabinet minister's statement there was no criticism of Lord Roberts, who appears to be trusted implicitly, but intense irritation and chagrin are felt that so many "unfortunate circumstances" should retard the march to Pretoria.

From one who was a guest at the banquet given to the queen, it was ascertained that her majesty looked exceptionally well and discussed the topics of the day with her usual keen perception. She appeared, however, to be getting so short sighted as to be almost blind.

Her majesty will probably leave Ireland between April 23 and April 28.

## GENERAL MAREUIL KILLED.

His Force Defeated by Methuen—Five Companies of British Captured by Boers.

LONDON, April 7.—The war office received the following dispatch from Lord Roberts, dated Bloemfontein, April 5:

"Methuen telegraphs from Boshof as follows:

"Surrender Gen. Villebois Mareuil and a body of Boers today. None escaped. Villebois and seven Boers killed, eight wounded, 50 prisoners. Our losses were: Killed, Captains Boyle and Williams, both of the Yeomanry, and two men of the Yeomanry. Wounded, about seven men.

"The attack lasted four hours. The corps behaved very well. Our force was composed of Yeomanry, the Kimberley mounted corps and the Fourth battery of artillery."

General de Villebois Mareuil was the chief of staff of the Boer army. He was about 50 years old and is said to have been responsible for many of the Boer successes in Natal, and later in Cape Colony and the southern part of the Orange Free State. It is said that he entered the Boer service merely because war was his trade. He went through a number of campaigns in the French army.

Lord Roberts also reported that five companies of British troops were captured by the Boers, near Bethany, his dispatch reading as follows:

"BLOEMFONTEIN, April 5.—Another unfortunate occurrence has resulted, I fear, in the capture of a party of infantry consisting of three companies of the Royal Irish Fusiliers and two companies of the Ninth regiment of mounted infantry, near Reddersburg, a little eastward of Bethany railway station, within a few miles of this place. They were surrounded by a stronger force of the enemy, with four or five guns. The detachment held out from noon, April 3, until April 4 at 9 a. m., and then, apparently, surrendered, for it is reported that the firing ceased at that time.

"Immediately after I heard the news, during the afternoon of April 3, I ordered Gatacre to proceed from Springfontein, his present headquarters, to Reddersburg with all possible speed, and I dispatched the Cameron Highlanders hence to Bethany. He arrived at Reddersburg at 10:30 yesterday morning without opposition, but could get no news from the missing detachment. There can be no doubt the whole party has been made prisoners."

## NO OVATION TO RHODES.

Arrived in England—Wouldn't Talk on South African Affairs.

LONDON, April 7.—Cecil Rhodes arrived at Southampton and came to London on landing. He observed reticence on South African affairs, especially as to his alleged differences with Colonel

## Kekewich at Kimberley.

Mr. Rhodes' reception was in marked contrast to his former ovations. The public did not show the slightest interest in him. From the time of his arrival he was surrounded by a bodyguard composed of Messrs. Beit, Harris, Rawkesley and Rochefort Maguire and other henchmen, who hurried him from the boat to the train and from the train to a cab without permitting him to speak to anyone.

## Boer Prisoners in Bad Shape.

SIMONSTOWN, Cape Colony, April 7.—Another batch of 1,300 Boer prisoners was removed from the transport Cambridge. The men presented a woe-begone appearance, many of them were sick and their baggage consisted mostly of Kaffir blankets, canvas water bottles and cooling utensils. One of the prisoners died of smallpox and four others are fatally ill.

## RIOT IN PORTO RICO.

About 2,000 Natives Attacked Foreign Colored Men—Troops on Patrol.

SAN JUAN DE PORTO RICO, April 7.—Natives made a concentrated movement at Puerto Tira, different mobs, totaling about 2,000 men, attacking the foreign colored men. Any English-speaking negro was subject to attack, particularly the natives of St. Thomas and St. Kitts. One Porto Rican was killed; one was seriously injured, and three negroes of St. Kitts were dangerously wounded. The affair was the outcome of the pier strike, and the pretense of the attack, apparently, was that the English islanders were usurping Porto Rican labor.

A company of infantry, under Captain Alexander and Lieutenants Ansell and Parker, was called out, martial law was declared, soldiers now patrol the streets and the rum shops were closed. The mere presence of the soldiers dispersed the crowds. There were no demonstrations after the arrival of the troops. The condition of affairs necessitates the presence of troops indefinitely in order to prevent more trouble. The municipal police are utterly inadequate to preserve order or handle any crowd. They stood by during the riot, as spectators, and made no attempt to interfere.

The Puerto Tira district of San Juan is about a mile from the city hall.

It is understood that the British consul has demanded protection for British subjects, though the authorities here will not make any statement on the subject.

## A MAYOR WHO HAS PLUCK.

Suppressed an Obnoxious Paper, at Santiago—Negro Population Excited. Summoned Gen. Rabi and Others.

SANTIAGO DE CUBA, April 7.—The first important action of the new mayor, Senor Grinan, in suppressing El Cubano Libre and placing the editorial staff of five men under arrest, created intense excitement when it became known. El Cubano Libre published an editorial, both offensive and indecent, in criticism of the civil government, particularly the municipal branch.

The Americans, foreigners and best class of Cubans applaud his action. Two hundred prominent Cubans signed a telegram to General Wood endorsing Senor Grinan's course.

The colored general, Babi, and other leaders were telegraphed to come immediately to Santiago to head a "popular movement against the Americans and the Cuban traitors."

All the police of the city and the rural guards are under arms and ready for an emergency.

The friends of annexation say that the attitude of the Cubans who are fighting each other shows the impossibility of self government.

All the papers except The Independencia endorse the mayor's action.

## ACCUSED OF ROBBING BAGGAGE.

A Lake Shore Employee Placed Under Arrest at Toledo.

TOLEDO, April 7.—Fred Burmeister, aged 50 years, of Buffalo, baggage man on a Lake Shore train running between here and Buffalo, was arrested on the arrival of his train from the east charged with having rifled baggage in transit. The complaint is made by John L. Freeman, general baggage agent of the Lake Shore, who says that Burmeister's depredations have been going on for the past two years.

The detectives and Freeman say that Burmeister has admitted his guilt. In a satchel found with the accused were goods said to be valued at \$3,000 and which, it is alleged, were taken by him from trunks in transit. Burmeister was placed in jail here. He will probably be taken to Buffalo for trial.

## Finnegan Didn't Last Long.

DETROIT, April 7.—Champion James Jeffries knocked out John Finnegan, of Pittsburgh, before the Cadillac Athletic club, in 55 seconds.

## TO CONTROL THE TRUSTS.

Wisconsin Congressman Presents a Measure in the House.

WASHINGTON, April 7.—Representative Jenkins, of Wisconsin, who is second in rank on the house sub-committee on trusts, introduced a proposed amendment to the constitution, giving congress control of all private corporations, co-partnerships and joint stock companies in the United States, and also giving congress power "to define, regulate, control, prohibit, repress and dissolve all trusts and monopolies and combinations or conspiracies to monopolize any part of trade or commerce, and all contracts and combinations in form of trusts or otherwise, or conspiracy in restraint of trade or commerce."

It is also provided that, in the absence of legislation by congress, the several states shall be free to act.

## A FATAL POLITICAL FIGHT.

Street Duel in Huntington, W. Va., Caused One Death—Several Wounded.

HUNTINGTON, W. Va., April 7.—The excitement over the city election resulted in a duel on Ninth street, in which Shelly Shartz was shot to death and several others injured.

Hall Ross, a Republican ward politician, ran into Cary Campbell, pushing him against Senator E. M. McCallister. Campbell asked Ross what he meant. Ross replied: "I mean this," and instantly pulling a revolver opened fire into the crowd, consisting of Senator McCallister, Carlos B. Campbell, Edmund Ely, Shelly Shartz and others. The first shot killed Shartz and almost instantly several revolvers were turned on Ross. A stray bullet struck Charley Snyder in the head, making a serious wound. Ross was shot twice, but his injuries are not serious.

## FOOD FOR FAMINE SUFFERERS.

Sheldon's Movement Started to Send 1,000,000 Bushels of Corn to India.

TOPEKA, April 7.—Governor Stanley presided at a mass-meeting held here for the purpose of inaugurating a movement to raise 1,000,000 bushels of corn to send to the famine sufferers of India. The Rev. Mr. Sheldon was the principal speaker and started the subscription by pledging \$1,000 of his share of the profits resulting from the Sheldon edition of The Capital.

A committee, of which Governor Stanley is chairman, will meet and arrange for a systematic canvass of the state for funds.

Fifteen hundred dollars and a carload of corn were pledged at the meeting.

## Executions in Porto Rico.

PONCE, Porto Rico, April 7.—Simeon Rodriguez, Carlos Pacheco, Hermogenes Pacheco, Eugenio Rodriguez and Rosalie Santiago, who are condemned to death by garroting, will be executed here today. Their crime was the murder, in October, 1898, of Senor Pruden-cio Mendes, at Yauco. The murderers, after criminally assaulting the wife and daughters of their victim, compelled them to dance about the corpse.

## G. A. R. May Receive Dewey.

CHICAGO, April 7.—Should the Dewey committee decide, owing to the admiral's political aspirations, not to welcome him in May in Chicago, the Grand Army of the Republic will invite him, as a presidential candidate, to attend the great encampment to be held in Chicago in August.

## Non-Union Miner a Witness.

WASHINGTON, April 7.—William M. Phipps, a non-union miner from the Coeur d'Alene, was a witness heard at the Coeur d'Alene investigation. He told of the threats and intimidation against him and others because of their refusal to join the miners' union, and of their being driven out of Wardner by a mob of 200 men beating tin cans.

## Chicago Wheat, Corn and Provisions.

CHICAGO, April 7.—The bears had their innings on 'change Friday. There was heavy liquidation in both corn and provisions and selling of wheat on the fine weather. Oats followed corn. The grain markets closed steady at the decline, but provisions seemed inclined towards weakness. May wheat closed 1/8 at 34c, May corn 3/8 at 34c, May oats 1/4 at 3c under Thursday, and provisions from 5c down in ribs to 30c lower in pork.

## Failed For Half a Million.

ATLANTA, April 7.—Judge Pardee, of the United States court, appointed Geo. A. Spear and Ligon Johnson receivers of the Atlanta National Building and Loan association, of Atlanta. The assets are placed at \$500,000. It is claimed by the receivers that every dollar of the indebtedness will be paid.

## Orlando A. Traugh Dead.

HOLLIDAYSBURG, Pa., April 7.—Orlando A. Traugh, editor and proprietor of the Hollidaysburg Standard for 59 years and the oldest Democratic editor in the Juniata valley, died, aged 80 years. He is survived by a wife, one son and three daughters.

## Sin Is Common.

The Examiner says that there is much of suggestiveness in this story that Dr. Stalker of Glasgow recently told. He was speaking of his early experiences as a minister:

"In Rannoch," he said, "I staid with an old farmer who was a kind of chief man in the congregation. I have been trying to remember his name, but it has escaped me. I remember perfectly his appearance—a grand old highlander, really a remarkable looking man. I think I still have a photograph which he gave me of himself that day. I was preaching of sin, and on the way home the old farmer was talking it all over in the most deeply interested way, and I just caught him saying this: 'Ay,' he said, 'Sin, sin! I wish we had another name for that, because the word has become so common that the thing no longer pierces our conscience.' Now, do you know, that stuck to me? It has come back to me hundreds of times since, and I believe it has helped me more to preach than whole books on the art of preaching, because it warned me to avoid hackneyed religious language and, instead of well worn theological terms, to make use of words more fresh and modern."

## The Most Likely Place.

If I desired to put myself in the most likely place for the Lord to meet with me, I should prefer the house of prayer, for it is in preaching that the word is most blessed, but still I think I should equally desire the reading of the Scriptures; for I might pause over every verse and say: "Such a verse was blessed to so many souls; then, why not to me? I am at least in the pool of Bethesda, I am walking among its porches, and who can tell but that the angel will stir the pool of the word, while I lie helplessly by the side of it, waiting for the blessing?" Spurgeon.

## Influence of Duty Upon Others.

In doing our very best to be good ourselves we bring tremendous unconscious influence to bear on every one around us. No one can meet a man who transparently and constantly tries to do his duty without being either spurred or shamed by the encounter.—American Friend.

## Tammany Men Saw Dewey.

NEW YORK, April 7.—A special to The Press from Philadelphia says: Robert Van Wyck, mayor of New York, representing Tammany hall, and two other Democratic leaders of New York, also representatives of Tammany, came to Philadelphia to confer with Admiral Dewey regarding his announcement that he would accept the nomination for the presidency of the United States.

## Preachers Dined at White House.

WASHINGTON, April 7.—President McKinley entertained informally at dinner at the White House, members of the conferences of the Methodist Episcopal church and the Methodist Episcopal Church South, now in session here. The guests were: Bishops Walden, Candler and Bowman, Presiding Elders Wilson and Boyd, and Revs. Lanahan, Duffey, Goucher, Denny and Bristol.

## Greeley Reported Progress.

WASHINGTON, April 7.—General Greeley, chief signal officer of the army, said that the work of establishing a thorough and complete system of communication in the island of Luzon by the officers and men of his branch of the service is progressing rapidly.

## Kearsarge Test a Success.

NEWPORT NEWS, Va., April 7.—The new battleship Kearsarge has returned from a short trip to sea with the naval inspection board. The test of the ship's turrets proved entirely satisfactory.

## Wheeler Called It Mere Compliment.

WASHINGTON, April 7.—General Wheeler's attention being called to a suggestion of himself as a vice presidential candidate, he said it was a mere passing compliment.

## John Norris Resigned.

NEW YORK, April 7.—John Norris, who has been prominently identified with the New York World and St. Louis Post-Dispatch in various official capacities, severed his connection with those papers by resignation.

## Members Praised Dr. Hillis.

NEW YORK, April 7.—In the Plymouth church the Rev. Dr. Newell Dwight Hillis was praised by his congregation for the stand he has taken against the presbytery of Chicago. Dr. Hillis was not present.

It is estimated that at any given time, in Germany alone, 1,300,000 persons are afflicted with consumption and 1,200,000 in America have it at all times. Professor Hirsch pronounces it emphatically a disease of all times, all countries and all races.

## AGAIN, I'M A DEMOCRAT!

Dewey "Wanted" to Vote For Cleveland.

NEVER HAS CAST A BALLOT.

Admiral Declared He Would Soon Issue a Statement—Said to Have Conferred with Certain Men, While in Philadelphia—Silent as to Plans.

WASHINGTON, April 7.—Admiral and Mrs. Dewey, on their return here, expressed themselves as greatly pleased with their reception. A number of reporters were at the house awaiting his return. In response to a question, the admiral said that he expected in a few days to have ready for the press the statement as to his plans for the future, which he indicated his intention to make.

"Can you confirm the statement you are credited with making that you are a Democrat?" persisted one of the reporters.

"Certainly I am a Democrat," he replied. "I always have been a Democrat," he added smilingly.

"Have you ever voted the Democratic ticket?"

"No, I never voted in my life. The only man I ever wanted to vote for was Mr. Cleveland."

"It is said that Mr. Cleveland wants you to run on a straight gold Democratic platform."

"Good night," answered the admiral, without answering the question, and retiring.

Monday next the admiral and Mrs. Dewey will move into their country house at Beauvoir, which they have taken for the summer.

PHILADELPHIA, April 7.—It was gleaned from what is considered a reliable source that Admiral Dewey had a two hours' conference, while here, with three men who came from New York. Who these men are cannot be learned. The informant, in response to questions, said the admiral's conferees were neither Grover Cleveland, W. C. Whitney nor David B. Hill. The men, it was further stated, immediately returned to New York. As to the nature of the conference nothing could be learned, but it was believed to have a close relation to Admiral Dewey's candidacy for the presidency.

While on the way from the hotel to join Mrs. Dewey on the train, a reporter asked Mr. Dewey whether he had any visitors besides Captain Brownson, and the admiral replied:

"I left orders at the hotel office that I would see no one."

"But did you see any one?"

"The orders I gave were explicit."

This was the only answer the admiral would give.

"It has been stated that if McKinley and Bryan are nominated you will run independently, is that true?"

"I have never said so."

"Admiral, how do you feel about the way the people of this country have received your announcement?"

"Well," he replied, "one must expect a great many things to be said of a man who has taken such a step."

"Then you are not at all discouraged?"

"No, sir, I am not discouraged."

WHITNEY NOT BACK OF DEWEY.

He Thinks the Hero of Manila Did It Himself.

NEW YORK, April 7.—William C. Whitney said that all statements suggesting that he has had anything to do with the candidacy of Admiral Dewey for the presidency are without foundation. He said in part:

"I believe it to be the act of the admiral himself. His nature is simple and straightforward, and he has doubtless been solicited to become a candidate by thousands of people who would like to see him president. I imagine that if you get at the real truth you will find that to be the reason of his announcement."

DISCUSSED DEWEY'S CANDIDACY.

One of the Subjects Up For Discussion by the Cabinet.

WASHINGTON, April 7.—The cabinet meeting was largely occupied with the instructions to be given to the Philippine commission. These instructions have not yet been completed, but it is expected they will be ready in time to reach the commission at San Francisco before their sailing day, the 15th inst.

The question of the appointment of a successor to Assistant Secretary Webster Davis was discussed briefly, as was the candidacy of Admiral Dewey.

Fatal Fight Over Dewey.

CHICAGO, April 7.—One man was killed and another badly hurt in a fight here growing out of an argument over

Admiral Dewey's candidacy for president. Eugene Tucker, a colored man, was shot and instantly killed by George Miller, a barber. The latter was badly cut about the throat with a razor and may die.

## THE FAILURES ANALYZED.

Dun's Review Considers More of the First Quarter—Features of Trade Treated.

NEW YORK, April 7.—R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

Only twice in 25 years would such failures as those of the first quarter of 1900 have seemed large. They are large compared with last year and 1898, and would have looked larger in 1888. The amount of liabilities, \$56,667,055, includes \$21,161,000 for the United States Flour Milling company and \$2,490,482 for 16 banks and other financial corporations, leaving 2,894 commercial failures, with \$33,022,573 liabilities. Actual defaults in manufacturing are smaller than in the first quarter of any other year except 1899 since classified failures began, as are trading liabilities.

Quarterly reviews today show that, outside the immediate effects of stock speculation and industrial consolidations, the volume of business has been larger this year than a year ago.

A little increase in foreign exports of wheat from Atlantic ports, flour included, 2,268,622 bushels against 2,074,769 last year, served as occasion for a little rise, but the gain was lost later, and the week closes unchanged. Pacific exports were 1,025,125 bushels against 392,876 last year. Corn exports, 3,695,915 bushels, against 3,412,480 last year, for the week showed not much greater gain, while receipts were over 1,000,000 bushels larger than last year, but the price rose 1½ cents. While supplies remaining are comparatively small, slight changes in movement affect prices much.

Business in woollens is also somewhat unsatisfactory, with cancellations comparatively numerous, and orders smaller than were expected. The sinking in prices of wool continues, from ½ cent to 1 cent more having been conceded this week at three chief markets have been only 3,933,600 pounds, and the absence of manufacturers from dealings still has its natural effect.

The steel sheet consolidation, with President McMurry of the Apollo works, at the head, promises great importance. If this, the tinplate, hoop and National Steel works make alliance with the Carnegie company, as is reported, the whole industry will sooner or later be affected.

For the present no change appears in the prices of pig, and only slightly more yielding in plates and bars to secure more business. But many new contracts are reported, including one purchase of rails for export, and the situation is generally more hopeful. The output of coke continues much the largest ever known.

Failures for the week were 159 in the United States, against 141 last year, and 29 in Canada, against 17 last year.

## A DAY IN WALL STREET.

Individuals Were Strong and the Railroads Generally Were Heavy.

The Bond Market.

NEW YORK, April 7.—Speculation in the industrials and the railroad stocks showed a distinct dividing line Friday. Both departments were extremely irregular, but generally speaking, the industrials were strong and the railroads were heavy. The sagging tendency of the railroads seemed to be due for the most part to selling to take profits.

There was a decrease in activity in the bond market and prices yielded at some points. Some issues were well taken at advancing prices. Total sales, par value, \$2,783,000. United States refunding 2s when issued declined ½ and the 3s registered advanced ¼ in the bid price.

Lehigh Laboratory Burned.

BETHLEHEM, Pa., April 7.—The physical laboratory of Lehigh university, one of the largest and best equipped in the country, was burned to the ground and all its scientific apparatus destroyed. The building was a four-story stone structure erected in 1893 at a cost of \$150,000. The apparatus was valued at \$50,000 and included all modern improvements. There is only \$50,000 insurance.

Dewey's Return to Washington.

PHILADELPHIA, April 7.—Admiral and Mrs. Dewey, who arrived here to attend the concert in aid of the families of soldiers and sailors killed in the Philippines, returned to Washington on the congressional limited express over the Pennsylvania railroad.

WILMINGTON, O., April 7.—C. Q. Hildebrand was nominated for congress by the Republican convention in the Sixth congressional district, breaking the deadlock.

## DECIDED FOR BECKHAM

He Is Governor, According to Kentucky High Court.

ONLY ONE REPUBLICAN DISSENTS.

The Other Two Judges of Taylor's Party Concur in the Final Conclusion—Republicans Will Appeal to the United States Supreme Court.

FRANKFORT, Ky., April 7.—The court of appeals handed down a decision in the governorship case in favor of the Democrats. The opinion is by six of the judges—four Democrats and two Republicans. One Republican, Durrelle, dissented.

The Republican judges, Burnam and Guffy, gave a separate opinion from the Democratic judges, but which agreed with the Democratic members in its conclusion.

Judge Hobson wrote the opinion of the court. The concurrence of Judges Burnam and Guffy with the four Democratic judges was a surprise generally, but to the Republicans especially, and there is much speculation now as to whether the talked-of appeal to the United States supreme court will be prosecuted.

The opinion holds that the action of the legislature in seating Governor Beckham was final, and that the courts have no power to reverse it; that Governor Taylor exceeded his authority in adjourning the legislature to London, and that the journals of the two houses of the legislature being regular, cannot be impeached.

Ex-Governor W. O. Bradley, chief counsel for Governor Taylor, authorized the statement that an appeal on behalf of Governor Taylor and Lieutenant Governor Marshall be carried to the supreme court of the United States. Mr. Bradley and Judge W. H. Yost, counsel for the Republican state officers, were in communication with Governor Taylor for several hours this afternoon and the above statement was made at the close of the conference. It is stated that Colonel W. C. P. Breckinridge and Republican leaders from different parts of the state will meet Governor Taylor in conference here today.

## STORY OF THE GOEBEL PLOT.

Follows Lines of Testimony of Wharton Golden, at Powers Hearing.

LOUISVILLE, April 7.—The Courier Journal prints a circumstantial story which purports to give the details of the conception and execution of the plot to kill Senator Goebel. The story is based upon evidence said to have been given to the attorneys for the prosecution by Wharton Golden, W. H. Culton, H. E. Youtsey and others. The story gives the name of the man suspected of having fired the shot that killed Senator Goebel. He is a Clay county feudist. He is supposed to be in the mountains, and has not been arrested.

The story follows the evidence given by Golden in the preliminary trial of Caleb Powers, as to the bringing to Frankfort of the armed mountain feudists. The men implicated in the conspiracy are the same who were implicated by Golden's testimony as to the plan to cause a riot in the legislature during which Democratic members were to have been killed, tells how the alleged plan to kill Senator Goebel was carried out, of the purchase of a well-known Cincinnati house of 25 steel bullets, smokeless powder cartridges, the procuring of a 38-caliber rifle with which the shooting is said to have been done, the weapon being returned an hour afterward, and the payment of \$1,600 in advance to the man who did the shooting. After the shooting, the man who did the work is said to have been escorted to the mountains by a number of armed men.

Bogus Captain Clark Sentenced.

NEW ORLEANS, April 6.—Julius Moyse, alias Captain Clark, who, during Mardi Gras week, married Miss Bertha Warnken under the false representation that he was the commander of the battleship Texas, then in port, and who was convicted Wednesday on the charge of impersonating a United States officer and with having obtained money under false pretenses, was sentenced to three years' imprisonment.

Their Insurance Void.

COLUMBUS, April 7.—H. A. Lanman & Co., whose factory at the penitentiary was burned several days ago, have \$20,612 insurance with companies not licensed to do business in Ohio. The state insurance commissioner gave notice that he would promptly cause the arrest of any person coming into the state to adjust the losses for these companies.

They're holding a caucus in the county of Stark. And the outlook at present is for a gay lark; Will Tayler win out, or Mr. Baker, C. C., Can any one tell what the harvest will be?

PEGEE COOLEY,

Today is little pay.

John McKenzie is thinking of moving to East Liverpool.—Cumberland Courier.

George C. Potter, who has been very ill at his home on Avondale street, is recovering.

Mrs. J. C. Allison, of Fourth street, who has been very ill with typhoid fever, is improving.

The Sunday boats, Keystone State, Ben Hur and Kanawha, are expected up tomorrow on scheduled time.

The new rails and switches for the siding to be constructed on the old Metsch property have been delivered.

The Cleveland & Pittsburg pay car will distribute the March wages to the employes about this city Monday.

The street force are today repairing the gutters on Calcutta road forced up by the frost during the winter.

Miss Myrtle Moore, of Trentvale street, entertained a number of her young friends Thursday night in honor of her eighth birthday.

William C. Kennedy and P. J. McCloskey, who have been in Cleveland for the past few days attending court, returned to the city last evening.

George Snape left yesterday for New York, whence he will sail today for England to be gone six weeks. Most of his visit will be spent at Stoke.

Mr. Comstock, traveling passenger agent of the Pittsburg, Bessemer & Lake Erie road, was in the city yesterday. He was booking picnics to Conneaut Lake.

The East Palestine pottery will build a two-story addition, which will give them 5,000 square feet more floor space. One biscuit and two decorating kilns will be added.

## CENSUS OF LIVE STOCK.

Director Merriam Even Wants the Number in Cities and Villages Reported to Him.

WASHINGTON, April 7.—The new law of congress which permits the director of the census to enumerate all the live stock found in cities, villages, lumber and mining camps and elsewhere off the farm and range, promises to provide, for the first time, an adequate basis for estimating the supply of stock on hand at a given time, the probable natural increase in that supply under normal conditions and the probable condition of future markets.

In reports to the agricultural department swine, goats, asses and burros are omitted. Of course, the live stock to be found in cities and villages are also omitted, because never enumerated; but all will be comprehended in the twelfth census returns, which will swell the total wealth represented in this class of property to perhaps \$3,000,000,000—an amount so stupendous that Director Merriam feels he was fully warranted in making extra preparations, not only for a complete enumeration, but an adequate classification of domestic animals.

The age classification will show the number of calves, lambs, colts and mule colts, under 1 year old; heifers, 1 and 2; steers, 1, 2, 3 and over; "cows kept for milk," 2 and over; "cows and heifers not kept for milk," 2 and over; bulls, 1 and over; rams and wethers, 1 and over; horses and mules, 1, 2 and over; ewes, 1 and over; goats, swine, asses and burros, "all ages."

Director Merriam hopes every stockman will exert himself to return his live stock with perfect accuracy, so that the twelfth census of domestic animals will be entirely satisfactory.

### SPOKE IN FAVOR OF QUAY.

Senator Sullivan Advocates the Seating of Governor Stone's Appointee.

WASHINGTON, April 7.—In the senate Mr. Sullivan made an address in support of M. S. Quay's claim to a seat in the senate as a senator from Pennsylvania. He maintained that both as a matter of policy and as a matter of justice to the state, the governor should be conceded and should exercise the authority to name the senator in the event that the legislature for any reason should fail to elect. For these reasons, he declared his intention of voting for the seating of Mr. Quay.

When the reading clerk of the senate had reached that part of the minutes of the day before which related to the presentation of the credentials of the Hon. J. C. S. Blackburn as a senator from Kentucky, Mr. Deboe, of Kentucky, said:

"I was not aware that these credentials were presented. I want to know now if they are a subject of reference. If so, I desire to have them referred to the committee on privileges and elections."

"I suppose," suggested Mr. Jones, of Arkansas, "that the senator (Deboe) will have no objection to the motion going over."

Mr. Deboe withdrew the motion for the present.

### HAWAIIAN BILL PASSED.

Substitute For Senate Measure Went Through in the House.

WASHINGTON, April 7.—The house, after four days' debate, passed the substitute for the senate bill providing for a territorial form of government for Hawaii. The bill now goes to conference.

The most interesting feature of the day's proceedings was the attempt of Mr. Hill (Conn.) to secure the adoption of two amendments, one providing for a resident commissioner instead of a delegate in congress, and the other declaring that nothing in the act should be interpreted as a pledge of statehood. Both were overwhelmingly defeated.

### Democratic Campaign Committee.

WASHINGTON, April 7.—The Democratic congressional campaign committee have chosen Representatives McRae, of Arkansas, and Norton, of Ohio, vice chairmen, and the following executive committee: Senator Cockrell, of Missouri; Representatives Hall, of Pennsylvania; Rapert, of New York; Wheeler, of Kentucky; Daly, of New Jersey; Fitzgerald, of Massachusetts, and Denny, of Maryland.

## EPWORTH LEAGUE.

Topic For the Week Beginning April 8, "Christ Our Missionary Model"—Text, John iv, 5-15.

"Give Me to drink?"

It was not a demand, but a request. Jesus was tired and thirsty. He was sitting by the side of the well dug ages before by Jacob near Shechem. He was resting after the long forenoon's walk, while His disciples went into the village a mile away to buy provisions. The well had no bucket. In the east each person brings his own rope and earthen jar to the well with him and carries it away when he goes. Jesus had no means of drawing water, and the well was deep. A woman of the neighborhood came to draw water. No common Jew would have spoken to her, much less have consented to drink from her pitcher or be in any way under obligation to her, however thirsty he might be. She was a Samaritan, and that meant to a Jew all that a person ought not to be, morally and religiously. Besides, it was not difficult for a practiced eye to see that she was not a woman of pure character. About as hopeless a case for missionary effort as could well be found. Most people would have let her alone.

What did Jesus do?

First of all, He felt sorry for her. Of course He must in mind have condemned her manner of life. Who can measure the recoil of His pure nature from her impurity? But no word or look showed anything of disgust or contempt. He held no argument about the right or wrong of her ways. He pitied her and was eager to show her a better life. Tired, hungry and thirsty. He was more hungry in soul to help her than to drink or eat Himself.

He got her to help Him.

He made no offer to help her. It would have been sharply refused. He asked a favor of her. "Will you give Me a drink? What a question! A Jew ask drink of a Samaritan, and of a woman at that! What could it mean? How could He do it? In her astonishment she asks Him to explain His action. He has gained His point. Her curiosity is aroused. Her mind is awake; the doors of the soul are open. No prejudice stands in the way of the truth. Easily He leads her, step by step, until she recognizes in Him a Master Spirit who is able to quench soul thirst by His own gift of purity. The good in her is stirred to action, and the power of righteousness overcomes the evil.

Did she give Him water to drink?

Who can tell? She forgot her water pot in her haste to call the men of the city to come and see the prophet. He forgot His hunger in the satisfaction of feeding a needy soul.

"They pressed Him to stay with them." So the gospel makes friends of Jews and Samaritans.

And He staid two days there. Wherever we are needed and can find those willing to receive the message, there should we stop awhile.

How much there is for every Christian worker to learn in this lesson! Jesus' mode of approach to a soul, His delicacy of touch, His courtesy, the resources of tactful earnestness; above all, His unwearied patience and unfailing sympathy, show us the way to win men.

## CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 8—Comment by Rev. S. H. Doyle.

Topic.—Christ our missionary model.—John iv, 5-15. (Quarterly missionary meeting.)

Going through Samaria as the most direct route on His way from Jerusalem to Galilee, Jesus, weary and worn from His long day's travel, sits down to rest upon the curb of the historic well of Jacob. A poor, degraded, sinful Samaritan woman comes to the well to draw water. Though belonging to a race despised by His own people, Jesus entered into conversation with her and so directed it that He made for Himself an opportunity to offer her the water of life. In this incident, in a strange land, to the member of a despised and sinful people Jesus preached the gospel, thus leaving us an example of the truest and loftiest kind of a missionary spirit and zeal.

1. Christ as a missionary was sent of God. His mission into the world was a divine mission. He came to seek and to save the lost as the business of His Father. From all eternity it was arranged in heaven that Christ should come to the world to offer salvation to the whole world through His life and death. The true missionary or soul winner at home or abroad needs to feel himself called of God. Love for

When winter comes the vital forces of nature are low, and the tree stands like

a solitary monument to the dead summer. In the winter of life, active men experience a similar lowering of vitality. In some the effect is startling. They loose their grip on life. They seem like monuments of a buried past. At this crisis there is need of a medicine which will nourish and build up the body, and increase its vital power. Such a medicine is Dr. Pierce's Golden Medical Discovery. It enriches the blood, purifies it, carries off the clogging waste of the system, increases the nutrition of the body, and produces a sound, healthy condition with abundant vital power and physical energy.

David Duggins, Esq., of Jones, Ohio Co., Ky., writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day. It has been six months since I took the medicine and I still have reasonable health. I am willing to have you publish this, and also my former letter, if you wish to, and if it proves to be of benefit to any afflicted person I will feel well repaid."

There is no alcohol or other intoxicant in "Golden Medical Discovery," neither opium or other narcotic drugs. The dealer who offers a substitute for the "Discovery" is seeking to profit himself, not to help you. Insist on having "Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Adviser is sent free, on receipt of stamps to cover cost of mailing only. Send 21 one-cent stamps for edition in paper cover, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

humanity, enthusiasm for men, will not make us willing to endure and sacrifice all that is necessary to save men. The heathen world in its sinfulness and degradation is not lovable. Man is not attractive for his own sake. Back of our efforts must be the inspiration that it is God's will that we should give and pray and labor to save the whole world. God calls us all to be missionaries; not all to go to the foreign field, but all to have some part in the work of sending the gospel to the whole world.

2. Christ, as a missionary, had the true message, Himself, as the water of life. Heathendom, like the Samaritan woman at the well, is thirsting for water—the water of life. The soul of mankind the world over is longing for God. Men are crying out for the living God, and in the efforts to find Him they are bowing down to the creature rather than the Creator, to the workmanship of their own hands. They need Christ to quench this thirst; they need Christ to show them what and where God is and how they may find Him; they need Christ to give them the water of eternal life. This must be our message to a sin cursed and dying world. Philosophy, philanthropy, humanitarianism, cannot satisfy this longing of heathendom. Only Christ can do it.

3. Christ, as a missionary, was successful. He had many difficulties to overcome. There were race difficulties, religious prejudices and social obstacles such as will be found in every mission field. But Christ overcame them all with the simple gospel of Himself as the Messiah and the water of life. Thus by prayer and self denying effort all difficulties in mission work today may be overcome and the world won to Christ.

### THE PRAYER MEETING.

The missionary committee should arrange a special programme, having appropriate hymns and prayers and five minute addresses or papers on Christ's leading characteristics as a missionary, such as (1) Christ's call, (2) Christ's message, (3) Christ's success, (4) Christ overcoming difficulties and (5) Christ's missionary command to his disciples.

## JOHN PURVIS IS ACQUITTED

Found Not Guilty By New Cumberland Jury of Murder of John Cummings.

## JURY OUT BUT A SHORT TIME

Purvis Left Immediately After His Release This Afternoon For Wellsville.

## THE VERDICT WAS EXPECTED.

New Cumberland, W. Va., April 7.—(Special.)—John Purvis has been acquitted of the murder of John Cummings. The jury which heard the evidence went out at 10:30 o'clock this morning and at noon returned a verdict of not guilty.

Purvis was immediately released from custody and this afternoon will leave for Wellsville. Joe Willis, who is wanted in connection with the case, is still at liberty.

## DISMISSED.

The Case Against John Kountz is Off the Docket—Burgess Is Firm.

The case against John Kountz for disorderly conduct was dismissed last night after hanging fire for several weeks. E. L. Hughes, the other party who was implicated in the fight, is in Pennsylvania and his case will not be heard until he gets back.

Moody Coburn went to sleep yesterday afternoon in Rinehart's livery stable. He was arrested and after being in jail all night was released and will have a hearing tonight.

Sanitary Officer Burgess told the mayor about the dog Officer Wood killed, and the mayor talked to Wood and told him he had better pay the 25 cents and save a clash. Wood hasn't paid it yet, and Burgess asserts that he will push the case. He also says he has notified the street railway company that they must in the future bury all dogs killed by their cars.

## QUEER REPORTS.

Made By Physicians When Reporting Causes of Death to Health Officer Ogden.

Health Officer Charles B. Ogden, while at the city hall last evening, told the story of how some physicians reported deaths. "Indeed," said Dr. Ogden, "within the last year I received reports from two physicians which puzzled me. A report one physician sent me read, 'died from want of breath.' I went to this physician and asked him if he meant to say that and he said his report was correct. Another report I received not long ago read, 'sick since birth.' This case was that of a small child, and to this day I have not found out the cause of death."

## STARK COUNTY VOTING TODAY

Taylor-Baker Fight Now Raging Over In Canton, Alliance and Other Battlegrounds.

## MAHONING IS ALL TORN UP

Two Sets of Delegates to the Convention and Maybe Two Conventions.

## BIG FIGHT IS BREWING THERE.

Canton, April 7.—(Special.)—Stark county Republicans are today holding their congressional primary. The fight is the same as that in Columbiana county March 24, there being but the two candidates, R. W. Tayler and C. C. Baker. Both sides claim a walk-over. There will probably be an average vote out.

Stark county has 108 delegates to the Alliance convention, so that with the 81 already chosen in Columbiana, 189 delegates will be elected when the polls close here this evening. But 126 are necessary to nominate. If Tayler, with 56½ from Columbiana, wins 69½ here today the fight will be over. Baker to win today would need 101½, an apparent impossible calculation, so if Tayler fails to land 69½ in Stark today Mahoning will have to settle it.

## CREAT SCRAP.

PROMISED AT MAHONING COUNTY CONVENTION.

McNab, Norris and Kennedy Struggling for Congressional Delegates at Long Range.

Youngstown, April 7.—(Special.)—The indications now are that Mahoning county will have two sets of delegates to its Republican county convention, which is to nominate its choice for congress, and possibly there may be two county conventions.

James Thomas, candidate for sheriff, backed by Congressional Candidate McNab, has named one set of delegates, and Candidates Norris and Kennedy named another delegation.

The rule in vogue in this county was that the candidate having the highest number of votes for a county nomination should name the delegates to the county convention, which will select the delegates to the congressional convention. Thomas claimed to have received the highest number of votes and the right to name the delegates. His opponents desiring to get control of the county delegates and through them the congressional delegates out of his hands, worked a scheme whereby there was a contest for another office, and their candidate getting the highest number of votes, was to name the county convention delegates. The county executive committee will be called upon to decide whether under the rules Thomas, who was unopposed and consequently received the highest number of votes for his office, shall name the delegates or whether the candidate for the other office, who received the higher number of votes in a contested nomination, shall do so.

## ORGANIZED.

NEW CENTRAL COMMITTEE ELECTED OFFICERS.

George H. Owen Was Re-Elected Chairman to Serve Another Year.

The Republican central committee met last evening at city hall, and the old committee finished up their business and adjourned sine die. The members of the new committee organized by electing George H. Owen chairman. Clerk James N. Hanley positively declined to be re-elected secretary and Joe Betz was chosen. A. W. Thomas was elected treasurer, and was designated as the "War Horse" of the committee. Chairman Owen announced that it would be a long time until the committees would have anything to do, so he would not announce any of his committees until the time for opening the presidential campaign.

## CITY COUNCIL.

Councilman J. T. Smith Desires Harmony in Preference to Any Official Position.

There are two aspirants for the position of president of council, Dr. R. J. Marshall, of the Fifth ward, and J. T. Smith, of the Second ward. Either of these gentlemen will, if elected, fill the berth acceptably to the people. Both are brainy business men, and either one will no doubt do everything in his power to show the people that his fellow members acted wisely and well in their selection of a presiding officer.

J. T. Smith was interviewed this afternoon, and while he would gladly accept the honor if conferred upon him by his fellow members he prefers private membership and harmony to office and discord. He further states that certain of his fellow members have asked him, in case he is elected as president, that they should be placed upon certain committees and he made response that he had no objection, but so far as any definite promise is concerned he stands absolutely free and untrammelled, as no other course would be wise or just or right in the presiding officer of any organization, especially in such an important berth as president of the city council, where vital interests are at stake, and where any other course might work serious injury and injustice to the citizens at large.

## Veteran Dead.

Thomas Johnson, of Beaver Falls, died at that place this morning. The funeral will take place Monday afternoon at 2 o'clock. Deceased was an old veteran with a splendid record. Perry Johnson, well known here, is a brother of the deceased. There are many friends and relatives of both in East Liverpool. Thomas Johnson was a cousin of Mrs. J. D. West.

## W. W. TRUSTEES FINISH THE YEAR

By Granting a Number of Petitions For New Water Mains.

## THE NEW BOARD ORGANIZED

By Electing W. L. Smith President and Jacob Shenkel Vice-President.

## NEW MAIN FOR FOURTH STREET

The water works trustees met last night and paid a number of bills. A petition was received from the residents of McKinnon's addition asking that a main be laid along McKinnon street. The petition was received and ordered filed. A petition from residents of Helana asked that 350 feet of pipe be laid in an alley in that section of the city. The petition was granted. Kossuth street residents wanted a four inch main from Walnut street to College street. Their request was granted. This finished the business of the old board, and they adjourned sine die.

The new board met at once and organized by electing the following officers:

President, W. L. Smith; vice president, Jacob Shenkel; Superintendent, Phil Morley; assistant superintendent, Edward Cox; secretary, J. W. Gipner.

Superintendent Morley stated that council proposed to have Fourth street paved this year, and that the four inch main on the street was badly corroded and did not furnish ample fire protection. He recommended that a six inch main be laid on the street before it was paved. He was instructed to measure up the distance and estimate the cost of the improvement and report at a special meeting to be held at his call.

### NOTICE TO WATER CONSUMERS.

Water rent now due, pay promptly and save 10 per cent during the month of April.  
J. W. GIPNER, Clerk.

Fred Sebring, manager of the Ohio China pottery, East Palestine, was in the city today.

The practice of boys riding bicycles on the sidewalks should be stopped. For several days the youngsters have been riding on the pavements, and yesterday afternoon one accident was narrowly averted at the corner of Pennsylvania avenue. A boy was turning the southeast corner when he ran his wheel against a young lady, but fortunately did not knock her down.

Much interest is being taken in the series of special meetings that will be held in the Second Presbyterian church next week. The meetings will commence on Monday evening and continue until and including the following Sunday.

Street Foreman John Spence, of Pennsylvania avenue, who has been ill with grip for the past week, was able to be out yesterday.

A number of young men from the suburb went over to Chester yesterday afternoon to watch the steam shovel work on the upper end of the Mark's farm. They crossed the river above Babb's island.

The sewer in Pennsylvania avenue that has been broken for several days was repaired yesterday afternoon.

Don Mowen, of Mulberry street, who has been spending the past few days at his former home at Deerfield, near Alliance, will return to his home this evening.

Mrs. George McKinnon, who has been ill with asthma for a week, is recovering.

The Junior Christian union, of the Second United Presbyterian church, were pleasantly entertained at the home of Rev. J. R. Greene Thursday evening. About 70 children were present.

Mrs. Donovan, of River avenue, who has been ill for some time, is improving rapidly.

The street car track east of Ralston crossing is being repaired. The road bed is also being repaired.

### WELSBACH LIGHTS.

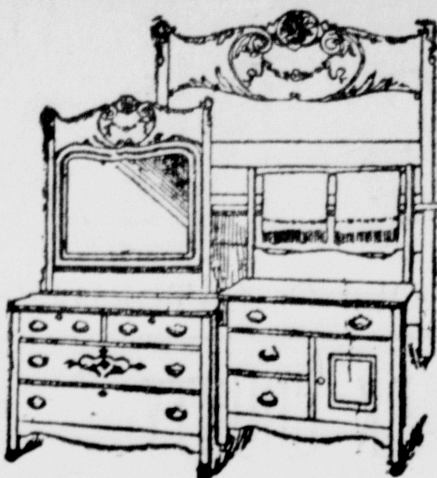

News Review Readers Will Be Interested in the Following Statement.

The Welsbach light has become very popular, and justly so, in this section. It is a great gas saver, and at the same time gives a very soft and mellow light, proving a source of great gratification to students and readers, and indeed to patrons and users in general. Calling at the Ohio Valley Gas company's office this morning on a business mission, we had the pleasure of an introduction to Mr. Chas. J. Beardsley, agent for the Welsbach department. Mr. Beardsley will be located with us permanently, and he will take your orders for lamps and give all information required respecting the same. You will find Mr. Beardsley on duty at the office of the Ohio Valley Gas company.

### MRS. SCOTT.

A Pioneer Resident of the City Died Thursday Afternoon—Funeral Tomorrow.

Mrs. Mahalah Scott, aged 76 years, died Thursday afternoon at her home, 223 Peach alley, after an extended illness from a complication of diseases. Mrs. Scott was one of the pioneer settlers of the city, having located here when but a few houses comprised the town. She was held in highest esteem by all who knew her, and had been a life long member of the Presbyterian church. She leaves two daughters, Mrs. James G. Cowan and Mrs. Mary E. Hinkle, and two granddaughters, Mrs. Arthur Bloor and Miss Allie Scott, and a host of friends to mourn her loss. The funeral will take place Sunday afternoon at 2 o'clock from her late home. Interment at Riverview.

## WINE OF CARDUI

### Woman's Crowning Virtue.

BELTON, Mo., July 27.  
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.  
MRS. MINNIE LITTLE.

### Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

## PULLMAN PARLOR CARS.

Improving the Train Service to Pittsburgh and Cleveland via Pennsylvania Lines.

New Pullman parlor cars have taken the place of the parlor cars running on trains Nos. 337 and 338, between Pittsburgh and Cleveland over the Pennsylvania lines. The new cars are the latest pattern turned out by the Pullman company and are finished and furnished in a substantial manner. They have roomy and comfortable revolving arm chairs, wide plate glass windows, commodious smoking apartment and a large retiring room for ladies. This room is fitted up with dresser and plate glass mirror. The new cars leave East Liverpool for Cleveland at 2:49 p. m. and for Pittsburgh at 7:04 p. m., central time, week days.

## ESTATES IN COURT.

Probate Court at Lisbon Busy Adjusting Affairs of the Dead.

Lisbon, April 7.—(Special.)—James Charters, as executor of Elizabeth Mather's estate, was today authorized to sell personal property at private sale within two months.

The will in the estate of Susanna Hudson, late of Fairfield township, was filed for probate and a commission issued to take testimony of subscribing witnesses.

In the estate of Cynthia Bradshaw, late of East Liverpool, an order of private sale was issued for personal property.

Milton Behner filed an application to be released from the bond of C. A. Guthrie, guardian of Elizabeth Nogle.

### Understands His Business.

Mr. George D. Winnie, now in our city, representing the American Registry company, is a courteous, clever gentleman and man of the world. He is a fluent conversationalist and clenches his arguments in a manner which prevents successful contradiction. It is a genuine pleasure to listen to him. He represents good features in accident policies, and will convince you of the fact when you give him the opportunity. We know. He convinced us against our will.

### Salineville Graduates.

Salineville's high school will graduate a class of seven, composed of Misses Isabel Strabley, Mary Maloney, May Hays, Maude McGillivray and Messrs. Harry Dallas, Firman Dorrance and John McIntosh.

### COMMON PROPERTY.

Public Praise is Public Property—East Liverpool People May Profit by Local Experience.

Grateful people will talk. Tell their experience for the public good.

East Liverpool people praise Doan's Kidney Pills.

Kidney sufferers appreciate this. They find relief for every kidney ill. Read what this citizen says:

Mr. Jacob Schenke, tonsorial artist, whose parlor is at 138 Sixth street, says: "I had for several years a weak back and kidneys, severe pains across the loins around through my thighs, at times so bad that it was impossible for me to get out of bed, cramps through my limbs and frequent attacks of dizziness. It was probably the result of a neglected cold. Be that as it may, I suffered with the attacks. I was recommended to try Doan's Kidney Pills, and procured a box at the W. & W. pharmacy. They so thoroughly removed my trouble and so acted as a general tonic that I have had no bother after the treatment and could not feel better."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Senator Frank B. Archer, of this  
district, has done two good things  
during his term. He voted for the

## CLEAN 'EM UP.

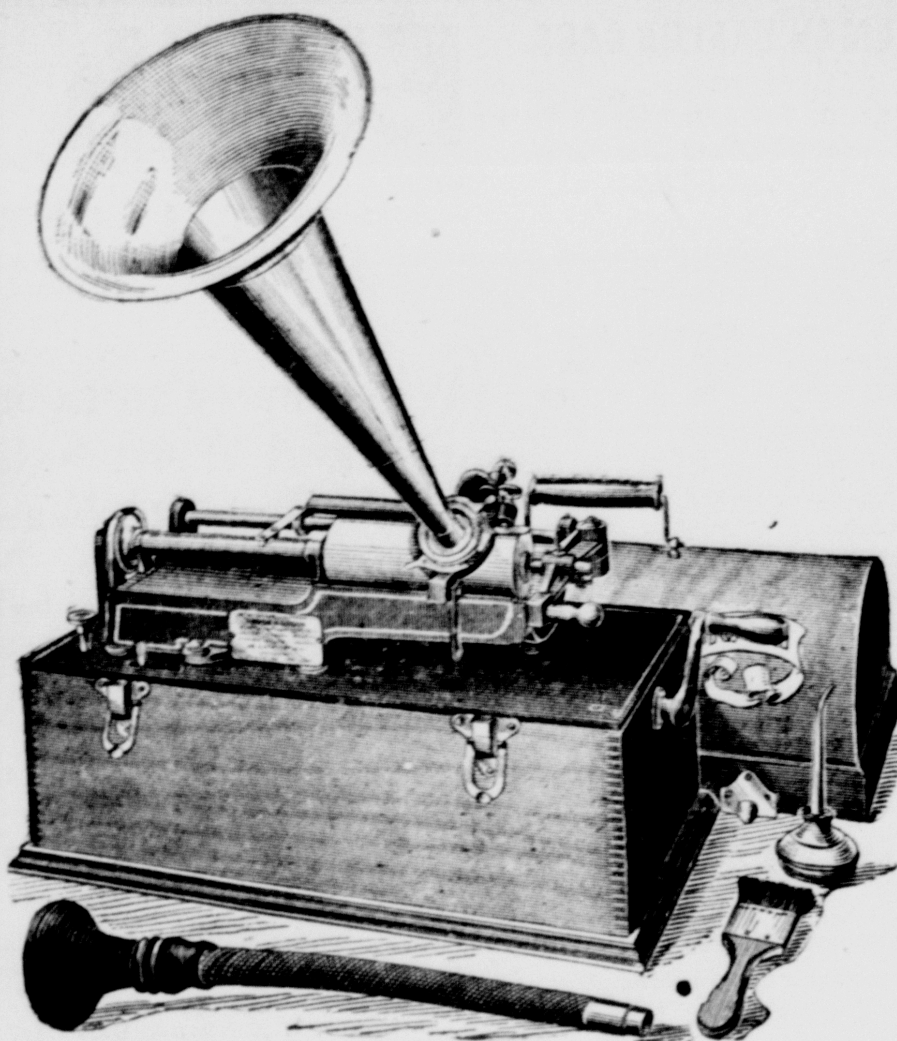

Our streets, of course. There is  
room for great improvement in streets

## IMPORTANT OFFICES.

There are some very important of-  
fices connected with city council. The  
members of that august body should  
chose their leaders wisely and well.

## GOOSE EGGS.

The same old goose still lives, or  
one of the flock, and it will occasion-  
ally indulge in laying golden eggs. If  
you possess an interest in one of these  
rare fowl, don't make a bloomin' idiot  
of yourself by carving the bird and  
thus deliberately destroy the source  
of your income.

harmony in order that this city shall  
be governed and controlled aright.  
Bury petty spits and differences,  
gentlemen, and work for the common  
good.

## Dreams of the Maimed.

M. de Manacine, the Russian psychol-  
ogist, mentions the case of a person  
born without arms or feet who always  
dreamed that he had been mutilated.  
Now, it should be borne in mind, he  
says, that the majority of persons born  
without arms or feet always dream  
that they possess these extremities. It  
is evident, he maintains, that this dif-  
ference results, in the first instance,  
from weak impressions hereditarily  
transmitted, and in the second instance  
from the strength and precision of  
these impressions. Persons whose  
limbs have been amputated are subject  
to curious delusions while asleep. They  
never dream that they are walking on  
crutches; quite the contrary, they in-  
variably dream that they are walking  
with their feet, with this difference  
only—that as time passes their extre-  
mities appear to become shorter and  
shorter.

M. de Manacine mentions as a curi-  
ous fact that this hallucination is very  
pronounced when the wound has healed  
without complications; while on the  
other hand there is no hallucination  
when the process of cicatrization has  
been painful. Moreover, we find the  
reason of this difference in the greater  
or lesser intensity of the sensations ex-  
perienced. Still, if the dreams of ab-  
normally formed persons are charac-  
terized by certain peculiarities, they  
are none the less subjected, as are other  
dreams, to the mysterious conditions of  
the human organism, and, like other  
dreams, their repercussion on the  
wakeful state is identical.

## Cautious Procedure.

"Colonel, if you called a man a liar,  
you would surely expect a fight, would  
you not?" asked the stranger from the  
north.

"No, sah," replied the colonel. "We  
don't call a man a liar down beah until  
we have shot him fust, sah, so full of  
holes that there is no light in him, sah."  
—Indianapolis Press.

ter's departure.—Atchison Globe.

## COMING ATTRACTIONS.

### "A Hot Old Time."

The success of "A Hot Old Time,"  
which comes to the Grand on Tues-  
day evening, is of a substantial sort  
that admits of no argument. The  
play is now in its third season and  
it has steadily grown in favor since  
its original production at the Star  
theater, New York. The fact that it  
has invariably played to increased re-  
ceipts on return engagements is con-  
clusive evidence that it is well worth  
seeing.

### "A Black Sheep."

All the hilarity and jovial ceremon-  
ies which attend the presentation  
here of anything new from the pen of  
the clever and most popular play-  
right, Charles Hoyt, will come into  
evidence next Thursday evening at  
the Grand, when "A Black Sheep," his  
most successful and funniest work,  
will be the attraction.

### Rentz-Santley Burlesque.

Those famous duettists, the Misses  
Personi and Romaire, are one of the  
many attractions with the Rentz-  
Santley Burlesque company, who play  
an engagement at the Grand opera  
house next Wednesday night, April  
11, when they will present their latest  
terpsichorean successes. What these  
little dashing danseuses do not  
know about the art of extracting  
music with the feet is not worth learn-  
ing, and their sweet voices lend a  
pleasing accompaniment to the patter  
of their tiny feet.

### An Overcautious Wife.

An incident occurred at the redem-  
tion bureau of the treasury which  
ought to be a warning to wives. A  
woman in New England placed \$48 in  
bank bills in the oven of the kitchen  
stove in order to hide it from her hus-  
band. She forgot to take it out, and in  
the morning he kindled a hot fire and  
reduced the money to a crisp before  
his wife remembered where it was.  
She picked up the ashes, enough to  
half fill a wineglass, put them in a lit-  
tle box and sent them down to Wash-  
ington to be redeemed. The experts,  
by the use of magnifying glasses, iden-  
tified the bills to the amount of \$36  
and sent her that money, but it cost  
her \$12 to fool her husband, and she  
will probably not try it again.

# BOARD OF HEALTH ANNUAL REPORT

Health Officer Ogden's Yearly Re-  
view Presented to the Board  
Last Night.

## 433 BIRTHS AND 180 DEATHS

More Males Were Born and More  
Males Died Than Females Dur-  
ing the Past Year.

## MARCH HAD 16 TYPHOID CASES.

The last meeting of the old board  
of health was to have been held at  
city hall last evening, but only two  
members, Messrs. Chambers and  
Haines, and Clerk Ferran were pres-  
ent. The new board will be organized  
at the next meeting.

The health officer's report for the  
month of March was as follows:  
Births, males 22, females 12; deaths,  
males 5, females 8; causes of death,  
meningitis 5, pneumonia 2, consump-  
tion 2, tumor of brain 1, cancer 1,  
blood poison 1, brain fever 1. During  
the month 16 cases of typhoid fever  
and one case of diphtheria were re-  
ported.

The sanitary officer during the  
month ordered seven vaults cleaned  
and buried 14 dogs and cats killed.

The annual report of Health Officer  
Charles B. Ogden was as follows:

The health of the city has been  
good during the past year, and is at  
present in an excellent state. The  
largest number of deaths from one  
disease was caused by pneumonia,  
which claimed 23 people. Typhoid fe-  
ver caused the death of 17 cases, and  
14 cases of consumption have proved  
fatal.

The number of deaths from all dis-  
eases was 180, being about 10 in 1,000  
of the population, estimated at 18,000.

The number of births exceeded the  
number of deaths by 253. Two hun-  
dred and thirty-one boys and 202 girls  
were added to the population of the  
city within the time covered by the  
report.

The persistent continuance of ty-  
phoid fever in this city can fairly be  
ascribed to the impure water gener-  
ally used, and we hope the improve-  
ments now being made by the city  
water works trustees will, in the  
near future, materially assist in re-  
ducing the number of cases of this  
form of disease.

Out of 22 cases of diphtheria only  
one proved fatal; out of 40 cases of  
scarlet fever none were fatal, and  
out of 134 cases of typhoid fever only  
17 resulted in death. All houses  
where infectious diseases have been  
were properly placarded and thor-  
oughly fumigated in compliance with  
law.

## Sanitary Conditions.

The excellent sanitary condition of  
the public school buildings, which  
have all been visited and examined  
by the health officer, is deserving of  
praise, and denotes good work and  
close attention to details on the part  
of those having the buildings in  
charge.

We note with feelings of pleasure  
that the sewer in district No. 2 will  
soon be under construction, and hope  
that this branch of the public improve-  
ment may be pushed to completion as  
soon as possible.

We again urgently and respect-  
fully call your attention to the filthy  
condition of the alleys in the cen-  
tral part of the city, and suggest that  
they be paved with brick, as it is  
very difficult to clear away the refuse  
matter which is thrown into them,  
and which stuff creates a stench dur-  
ing the warm season that cries aloud  
for removal.

## SEVERAL PLANTS SHORT OF WARE

Unusually Heavy Trade During  
the Holidays Is What  
Did It.

### THERE WAS MUCH SICKNESS

Among the Workmen and the Pot-  
teries Have Had No Time to  
Stock Up.

### DRESDEN'S NEW GAS BURNER.

Nearly every pottery in the city is at present experiencing a shortage of ware. This is caused by the unusually heavy trade during the holidays and the fact that there has been much sickness among the workmen. The potteries will not be able to catch up until orders fall off considerably and they can stock up. Another reason for the shortage is the fact that trade on shapes is continually shifting, and as soon as the potteries get a good line of one shape on hand trade leaves that shape and goes to another. It is almost impossible to keep up assortments, and the principal shortage is on cups. An illustration of how busy the potteries are is in the fact that a few days ago a party went to one of the potteries and wanted an underglazed dinner set. It was a special order and ordinarily would only take four or five days to get it out. The pottery would not promise to deliver that dinner set until July.

### CERAMICS.

#### SEVERAL POINTS IN THE HISTORY OF POTTERY.

Pottery Was Used By the Babylonians  
and Assyrians for Their  
Public Archives.

The use of pottery dates far back into antiquity. The Assyrians and the Babylonians made use of it for their public archives, historical annals, astronomical calculations and the like, these things being imprinted on soft clay tablets, cylinders and hexagonal prisms, which were afterward hardened by baking. The Egyptians attributed the art of pottery to their gods, proof that it was in use before the historical period. They believed that the god Nun was director of the universe, and the oldest of created things. It was he who first originated the potter's art and molded the human race on his wheel. There are no traces of ancient Hebrew pottery, but occasionally one comes across a dingy looking piece of terra cotta in some antiquarian shop, which is supposed to be such, but which is a pure and simple fabrication of the clever dealer. The Greeks did much to advance the art, and the prizes given the victors of many of their contests were of lustrous or glazed ware. The name Ceramics or Keramics, is said to be derived from the name Keramus. Keramus was the son of Bacchus and Ariadne, the prototype and protector of the potter's art.

### TRADE CONTINUES GOOD.

All the Potteries are Running Full  
and Have Plenty of  
Orders.

The potteries in all sections of the country are running to their fullest extent and with many of them orders are in advance of the means to readily supply them. The increase in the

price of ware abroad and the scarcity of stock in some places there, is now reflected here in the action of dealers who show much more interest in the supply of their requirements than they have done for many months before. With the continuous increase in consumption which is going on every day and the narrowing means to meet it there can hardly be a doubt that there will be a general shortage before many weeks elapse, and those who placed their requisitions in time have reason to congratulate themselves, as unquestionably all late comers seem to be destined to wait. It looks like as if the coming season and fall will be an exception to presidential campaign years, which have usually been characterized by dullness in the pottery trade, as well as others, and that an unprecedented business will mark the closing year of the century.—China, Glass and Lamps.

### FINE CHINA.

How to Keep Plates Piled Together  
Without Damaging  
Them.

When it is necessary to keep finely decorated china plates piled together get some large sheets of blotting paper and cut from them circles large enough to cover the inside of the plates. Place these between the plates.

If tea and coffee cups are rinsed in cold water before being washed in soapy water they will not become stained. The hot soapsuds act as a mordant on the tannin of the tea or coffee and so fixes the stain on the china.—April Ladies' Home Journal.

### A NEW GAS BURNER.

Phil Morley Has Invented One And  
It Is Being Used at the  
Dresden.

The Dresden Pottery company are placing gas in all the kilns at the 'Pool. The gas has already been placed in a number of them, and a kiln has just been drawn that was fired with a new patent burner, the invention of Philip Morley, superintendent of city water works. The ware was fired, as well as it could have been with coal. The company intends to experiment further before placing the burners in the remainder of the kilns.—Commoner and Glass-worker.

### LISTS READY.

They Will Be Distributed the Early  
Part of Next  
Week.

The printing of the uniform wage scale has been completed and the lists were delivered to President Hughes today. They will be sent out to the potters of the United States next week and go into effect May 1. The lists are printed in book form.

Kilndrawers at the Greenwood pottery, Trenton, didn't get an increase of wages they struck for this week.

George Millward, glost kilnhand at the Standard, will be the new bench boss at Burfords.

Morris Bros., once of Wheeling, are trying to establish a pottery at Golden, Col. They have formed the Morris Pottery company, of Denver.

The printers' and transferers' union will hold another social session soon.

New glost kiln at the Salem pottery will be completed next week.

George Turner has left the Peoria pottery and gone back to Akron.

Peck Hester has quit the Steubenville pottery and is now at work in this city.

The Ohio China company, East Palestine, will build two new decorating kilns.

Percy Albright, the well known potter of this city, will play short stop for the East Palestine ball team this year.

The East Palestine potteries report very good business.

The railroad company will build a new siding at Sebring in order that 500 car loads of building material to be used at the new pottery may be placed upon the ground where it is needed. When the pottery is completed ware will be loaded from the packing shed into the cars at the door.

#### The Parson and the Rooster.

A good rooster story comes from a Somerset county correspondent. A certain clergyman, whom we will call Rev. Mr. Little, gave one of his parishioners a rooster, as a slight token of esteem. In the family was a bright 4-year-old boy, and he always called the rooster "Brother Little." One morning the little fellow saw the rooster coming toward the house, and he shouted, "Grandma, here comes Brother Little."

Grandma never stopped to look out or make any inquiries, but started quickly to pick up and set things to rights about the room. This done, she asked the boy, "Where is Brother Little?"

"Just gone into the stable," replied the boy.

Grandma thought she might have time to change her dress and quickly dodged into another room and in a very short time appeared attired in another gown, but somewhat out of breath. Again she asked the boy if he had seen Brother Little.

"Yes," said the innocent child; "there he goes back to the barn with the rest of the hens."

Grandma did not say a word, but sat down for a few minutes to rest, and later she seemed to enjoy the joke with her grandson, who looked on wonderingly as though he only partly took in the situation.—Bangor Whig and Courier.

No industry except that of cloth manufacture has contributed so much to the comfort and advancement of man as that of glassmaking, which is one of the oldest of technical industries. Its earliest home was Egypt.

A nation's flag represents its sovereignty and is prominently displayed in all army and navy battles. To "strike the flag" is to lower the national colors in token of submission to the opposing forces.

### ELASTIC APPOINTMENTS.

Original Way in Which an M. C.  
Pleases His Constituents.

A noted M. C., familiarly known as Joe, is one of the thriftiest men in congress, and the patronage at his disposal is made to do effective work in his home district. Not long ago he requested of a certain chief in the interior department an appointment as laborer for one of his constituents. The request was promptly complied with, but, much to the surprise of the chief, as promptly declined. The member was sent for.

"What does this mean?" demanded the official. "The man you were so urgent to have named as a laborer declines the position."

"Yes, I know," replied the M. C. "I advised him to."

"You advised him to," echoed the chief. "What was the matter? I gave you exactly what you asked for, didn't I?"

"Yes," responded Joe. "I have no fault to find with the appointment. The case is like this: My constituents follow me down to Washington hoping to get soft berths in the government service. There are a dozen here now and not places enough to go around. I secure the appointment for one, he asks my advice, and I tell him to decline; his job at home is better, so he goes back satisfied. I appoint another. He declines at my advice, but he has been paid, he is flattered and content, and so on through the list. You see, a man learns a thing or two after 20 years in Washington, and I have learned to make one appointment do for a dozen supporters."—Saturday Evening Post.

#### Holding the Ladder.

A workman in Cooper Institute, having occasion to ascend a ladder to do some repairing in one of the public rooms, called to an old man whom he happened to see standing by watching him. "Here, old fellow, hold the ladder for me, won't you?" The "old fellow" started forward and held the ladder for the workman while he climbed up and did his work.

"That unpretentious and willing old man," says The Independent, "was Peter Cooper." It was just like him. Peter Cooper's aim in life and in the beneficent institution founded by him might well be characterized by the words "holding the ladder." Thousands of rightly ambitious men and women owe the possibility of their advancement to Peter Cooper. He has held, and still holds, the ladder, and hundreds upon hundreds of successful and grateful climbers as they rise bless his memory. We cannot all build such piles as Cooper Union, but we can hold the ladder somewhere, somehow, for somebody.

# ROBERTS NOT BLAMED

But Recent Disaster Discourages British.

## PRETORIA'S CAPTURE FAR DISTANT

A Member of the Cabinet in Dublin Points Out the Bad Effect the Capture of the British Will Have—Obstacles to Advance Hard to Overcome.

DUBLIN, April 7.—Lord Roberts' dispatch describing the disaster at Reddersburg was printed in Dublin papers and created general consternation. It brought the populace with a quick turn from the rejoicing over the queen's visit to the great issues of the war and cast a sudden gloom over the gaiety of the party at the castle.

A prominent member of the cabinet, now in Dublin, did not attempt to conceal his mortification nor to minimize the evil effect of such reverses on the prestige of the empire abroad.

He attributed it and others like it of recent occurrence to a lack of horses and to the inability of the remounts sent forward to endure the climate. He appeared to have no hope of an immediate advance in force.

In the cabinet minister's statement there was no criticism of Lord Roberts, who appears to be trusted implicitly, but intense irritation and chagrin are felt that so many "unfortunate circumstances" should retard the march to Pretoria.

From one who was a guest at the banquet given to the queen, it was ascertained that her majesty looked exceptionally well and discussed the topics of the day with her usual keen perception. She appeared, however, to be getting so short sighted as to be almost blind.

Her majesty will probably leave Ireland between April 23 and April 28.

## GENERAL MAREUIL KILLED.

His Force Defeated by Methuen—Five Companies of British Captured by Boers.

LONDON, April 7.—The war office received the following dispatch from Lord Roberts, dated Bloemfontein, April 5:

"Methuen telegraphs from Boshof as follows:

"Surrender Gen. Villebois Mareuil and a body of Boers today. None escaped. Villebois and seven Boers killed, eight wounded, 50 prisoners. Our losses were: Killed, Captains Boyle and Williams, both of the Yeomanry, and two men of the Yeomanry. Wounded, about seven men.

"The attack lasted four hours. The corps behaved very well. Our force was composed of Yeomanry, the Kimberley mounted corps and the Fourth battery of artillery."

General de Villebois Mareuil was the chief of staff of the Boer army. He was about 50 years old and is said to have been responsible for many of the Boer successes in Natal, and later in Cape Colony and the southern part of the Orange Free State. It is said that he entered the Boer service merely because war was his trade. He went through a number of campaigns in the French army.

Lord Roberts also reported that five companies of British troops were captured by the Boers, near Bethany, his dispatch reading as follows:

"BLOEMFONTEIN, April 5.—Another unfortunate occurrence has resulted, I fear, in the capture of a party of infantry consisting of three companies of the Royal Irish Fusiliers and two companies of the Ninth regiment of mounted infantry, near Reddersburg, a little eastward of Bethany railway station, within a few miles of this place. They were surrounded by a stronger force of the enemy, with four or five guns. The detachment held out from noon, April 3, until April 4 at 9 a. m., and then, apparently, surrendered, for it is reported that the firing ceased at that time.

"Immediately after I heard the news, during the afternoon of April 3, I ordered Gatacre to proceed from Springfontein, his present headquarters, to Reddersburg with all possible speed, and I dispatched the Cameron Highlanders hence to Bethany. He arrived at Reddersburg at 10:30 yesterday morning without opposition, but could get no news from the missing detachment. There can be no doubt the whole party has been made prisoners."

## NO OVATION TO RHODES.

Arrived in England—Wouldn't Talk on South African Affairs.

LONDON, April 7.—Cecil Rhodes arrived at Southampton and came to London on landing. He observed reticence on South African affairs, especially as to his alleged differences with Colonel

## Kekewich at Kimberley.

Mr. Rhodes' reception was in marked contrast to his former ovations. The public did not show the slightest interest in him. From the time of his arrival he was surrounded by a bodyguard composed of Messrs. Beit, Harris, Rawlesley and Rochefort Maguire and other henchmen, who hurried him from the boat to the train and from the train to a cab without permitting him to speak to anyone.

## Boer Prisoners in Bad Shape.

SIMONTOWN, Cape Colony, April 7.—Another batch of 1,300 Boer prisoners was removed from the transport Cambridge. The men presented a woe-begone appearance, many of them were sick and their baggage consisted mostly of Kaffir blankets, canvas water bottles and cooking utensils. One of the prisoners died of smallpox and four others are fatally ill.

## RIOT IN PORTO RICO.

About 2,000 Natives Attacked Foreign Colored Men—Troops on Patrol.

SAN JUAN DE PORTO RICO, April 7.—Natives made a concentrated movement at Puerto Tira, different mobs, totaling about 2,000 men, attacking the foreign colored men. Any English-speaking negro was subject to attack, particularly the natives of St. Thomas and St. Kitts. One Porto Rican was killed; one was seriously injured, and three negroes of St. Kitts were dangerously wounded. The affair was the outcome of the pier strike, and the pretense of the attack, apparently, was that the English islanders were usurping Porto Rican labor.

A company of infantry, under Captain Alexander and Lieutenants Ansell and Parker, was called out, martial law was declared, soldiers now patrol the streets and the rum shops were closed. The mere presence of the soldiers dispersed the crowds. There were no demonstrations after the arrival of the troops. The condition of affairs necessitates the presence of troops indefinitely in order to prevent more trouble. The municipal police are utterly inadequate to preserve order or handle any crowd. They stood by during the riot, as spectators, and made no attempt to interfere.

The Puerto Tira district of San Juan is about a mile from the city hall.

It is understood that the British consul has demanded protection for British subjects, though the authorities here will not make any statement on the subject.

## A MAYOR WHO HAS PLUCK.

Suppressed an Obnoxious Paper, at Santiago—Negro Population Excited. Summoned Gen. Rabi and Others.

SANTIAGO DE CUBA, April 7.—The first important action of the new mayor, Senor Grinan, in suppressing El Cubano Libre and placing the editorial staff of five men under arrest, created intense excitement when it became known. El Cubano Libre published an editorial, both offensive and indecent, in criticism of the civil government, particularly the municipal branch.

The Americans, foreigners and best class of Cubans applaud his action. Two hundred prominent Cubans signed a telegram to General Wood endorsing Senor Grinan's course.

The colored general, Babi, and other leaders were telegraphed to come immediately to Santiago to head a "popular movement against the Americans and the Cuban traitors."

All the police of the city and the rural guards are under arms and ready for an emergency.

The friends of annexation say that the attitude of the Cubans who are fighting each other shows the impossibility of self government.

All the papers except The Independencia endorse the mayor's action.

## ACCUSED OF ROBBING BAGGAGE.

A Lake Shore Employee Placed Under Arrest at Toledo.

TOLEDO, April 7.—Fred Burmeister, aged 50 years, of Buffalo, baggage man on a Lake Shore train running between here and Buffalo, was arrested on the arrival of his train from the east charged with having rifled baggage in transit. The complaint is made by John L. Freeman, general baggage agent of the Lake Shore, who says that Burmeister's depredations have been going on for the past two years.

The detectives and Freeman say that Burmeister has admitted his guilt. In a satchel found with the accused were goods said to be valued at \$3,000 and which, it is alleged, were taken by him from trunks in transit. Burmeister was placed in jail here. He will probably be taken to Buffalo for trial.

## Finnegan Didn't Last Long.

DETROIT, April 7.—Champion James Jeffries knocked out John Finnegan, of Pittsburg, before the Cadillac Athletic club, in 55 seconds.

## TO CONTROL THE TRUSTS.

Wisconsin Congressman Presents a Measure in the House.

WASHINGTON, April 7.—Representative Jenkins, of Wisconsin, who is second in rank on the house sub-committee on trusts, introduced a proposed amendment to the constitution, giving congress control of all private corporations, co-partnerships and joint stock companies in the United States, and also giving congress power "to define, regulate, control, prohibit, repress and dissolve all trusts and monopolies and combinations or conspiracies to monopolize any part of trade or commerce, and all contracts and combinations in form of trusts or otherwise, or conspiracy in restraint of trade or commerce."

It is also provided that, in the absence of legislation by congress, the several states shall be free to act.

## A FATAL POLITICAL FIGHT.

Street Duel in Huntington, W. Va., Caused One Death—Several Wounded.

HUNTINGTON, W. Va., April 7.—The excitement over the city election resulted in a duel on Ninth street, in which Shelly Shartz was shot to death and several others injured.

Hall Ross, a Republican ward politician, ran into Cary Campbell, pushing him against Senator E. M. McCallister. Campbell asked Ross what he meant. Ross replied: "I mean this," and instantly pulling a revolver opened fire into the crowd, consisting of Senator McCallister, Carlos B. Campbell, Edmund Ely, Shelly Shartz and others. The first shot killed Shartz and almost instantly several revolvers were turned on Ross. A stray bullet struck Charley Snyder in the head, making a serious wound. Ross was shot twice, but his injuries are not serious.

## FOOD FOR FAMINE SUFFERERS.

Sheldon's Movement Started to Send 1,000,000 Bushels of Corn to India.

TOPEKA, April 7.—Governor Stanley presided at a mass meeting held here for the purpose of inaugurating a movement to raise 1,000,000 bushels of corn to send to the famine sufferers of India. The Rev. Mr. Sheldon was the principal speaker and started the subscription by pledging \$1,000 of his share of the profits resulting from the Sheldon edition of The Capital.

A committee, of which Governor Stanley is chairman, will meet and arrange for a systematic canvass of the state for funds.

Fifteen hundred dollars and a carload of corn were pledged at the meeting.

## Executions in Porto Rico.

PONCE, Porto Rico, April 7.—Simeon Rodriguez, Carlos Pacheco, Hermogenes Pacheco, Eugenio Rodriguez and Rosalie Santiago, who are condemned to death by garroting, will be executed here today. Their crime was the murder, in October, 1898, of Senor Pruden-cio Mendes, at Yauco. The murderers after criminally assaulting the wife and daughters of their victim, compelled them to dance about the corpse.

## G. A. R. May Receive Dewey.

CHICAGO, April 7.—Should the Dewey committee decide, owing to the admiral's political aspirations, not to welcome him in May in Chicago, the Grand Army of the Republic will invite him, as a presidential candidate, to attend the great encampment to be held in Chicago in August.

## Non-Union Miner a Witness.

WASHINGTON, April 7.—William M. Pipkins, a non-union miner from the Coeur d'Alene, was a witness heard at the Coeur d'Alene investigation. He told of the threats and intimidation against him and others because of their refusal to join the miners' union, and of their being driven out of Wardner by a mob of 200 men beating tin cans.

## Chicago Wheat, Corn and Provisions.

CHICAGO, April 7.—The bears had their innings on 'change Friday. There was heavy liquidation in both corn and provisions and selling of wheat on the fine weather. Oats followed corn. The grain markets closed steady at the decline, but provisions seemed inclined towards weakness. May wheat closed  $\frac{1}{8}$  @  $\frac{1}{4}$  c, May corn  $\frac{1}{8}$  @  $\frac{1}{4}$  c, May oats  $\frac{1}{4}$  @  $\frac{1}{2}$  c under Thursday, and provisions from 5c down in ribs to 30c lower in pork.

## Failed For Half a Million.

ATLANTA, April 7.—Judge Pardee, of the United States court, appointed Geo. A. Spear and Ligon Johnson receivers of the Atlanta National Building and Loan association, of Atlanta. The assets are placed at \$500,000. It is claimed by the receivers that every dollar of the indebtedness will be paid.

## Orlando A. Traugh Dead.

HOLLIDAYSBURG, Pa., April 7.—Orlando A. Traugh, editor and proprietor of the Hollidaysburg Standard for 59 years and the oldest Democratic editor in the Juniata valley, died, aged 80 years. He is survived by a wife, one son and three daughters.

## Sin is Common.

The Examiner says that there is much of suggestiveness in this story that Dr. Stalker of Glasgow recently told. He was speaking of his early experiences as a minister:

"In Rannoch," he said, "I staid with an old farmer who was a kind of chief man in the congregation. I have been trying to remember his name, but it has escaped me. I remember perfectly his appearance—a grand old highlander, really a remarkable looking man. I think I still have a photograph which he gave me of himself that day. I was preaching of sin, and on the way home the old farmer was talking it all over in the most deeply interested way, and I just caught him saying this: 'Ay!' he said. 'Sin, sin! I wish we had another name for that, because the word has become so common that the thing no longer pierces our conscience.' Now, do you know, that stuck to me? It has come back to me hundreds of times since, and I believe it has helped me more to preach than whole books on the art of preaching, because it warned me to avoid hackneyed religious language and, instead of well worn theological terms, to make use of words more fresh and modern."

## The Most Likely Place.

If I desired to put myself in the most likely place for the Lord to meet with me, I should prefer the house of prayer, for it is in preaching that the word is most blessed, but still I think I should equally desire the reading of the Scriptures; for I might pause over every verse and say: "Such a verse was blessed to so many souls; then, why not to me? I am at least in the pool of Bethesda, I am walking among its porches, and who can tell but that the angel will stir the pool of the word, while I lie helplessly by the side of it, waiting for the blessing?" Spurgeon.

## Influence of Duty Upon Others.

In doing our very best to be good ourselves we bring tremendous unconscious influence to bear on every one around us. No one can meet a man who transparently and constantly tries to do his duty without being either spurred or shamed by the encounter.—American Friend.

## Tammany Men Saw Dewey.

NEW YORK, April 7.—A special to The Press from Philadelphia says: Robert Van Wyck, mayor of New York, representing Tammany hall, and two other Democratic leaders of New York, also representatives of Tammany, came to Philadelphia to confer with Admiral Dewey regarding his announcement that he would accept the nomination for the presidency of the United States.

## Preachers Dined at White House.

WASHINGTON, April 7.—President McKinley entertained informally at dinner at the White House, members of the conferences of the Methodist Episcopal church and the Methodist Episcopal Church South, now in session here. The guests were Bishops Walden, Candler and Bowman, Presiding Elders Wilson and Boyd, and Revs. Lanahan, Duffey, Goucher, Denny and Bristol.

## Greeley Reported Progress.

WASHINGTON, April 7.—General Greeley, chief signal officer of the army, said that the work of establishing a thorough and complete system of communication in the island of Luzon by the officers and men of his branch of the service is progressing rapidly.

## Kearsarge Test a Success.

NEWPORT NEWS, Va., April 7.—The new battleship Kearsarge has returned from a short trip to sea with the naval inspection board. The test of the ship's turrets proved entirely satisfactory.

## Wheeler Called It Mere Compliment.

WASHINGTON, April 7.—General Wheeler's attention being called to a suggestion of himself as a vice presidential candidate, he said it was a mere passing compliment.

## John Norris Resigned.

NEW YORK, April 7.—John Norris, who has been prominently identified with the New York World and St. Louis Post-Dispatch in various official capacities, severed his connection with those papers by resignation.

## Members Praised Dr. Hillis.

NEW YORK, April 7.—In the Plymouth church the Rev. Dr. Newell Dwight Hillis was praised by his congregation for the stand he has taken against the presbytery of Chicago. Dr. Hillis was not present.

It is estimated that at any given time, in Germany alone, 1,300,000 persons are afflicted with consumption and 1,200,000 in America have it at all times. Professor Hirsch pronounces it emphatically a disease of all times, all countries and all races.

## AGAIN, I'M A DEMOCRAT!

Dewey "Wanted" to Vote For Cleveland.

NEVER HAS CAST A BALLOT.

Admiral Declared He Would Soon Issue a Statement—Said to Have Conferred With Certain Men, While in Philadelphia—Silent as to Plans.

WASHINGTON, April 7.—Admiral and Mrs. Dewey, on their return here, expressed themselves as greatly pleased with their reception. A number of reporters were at the house awaiting his return. In response to a question, the admiral said that he expected in a few days to have ready for the press the statement as to his plans for the future, which he indicated his intention to make.

"Can you confirm the statement you are credited with making that you are a Democrat?" persisted one of the reporters.

"Certainly I am a Democrat," he replied. "I always have been a Democrat," he added smilingly.

"Have you ever voted the Democratic ticket?"

"No, I never voted in my life. The only man I ever wanted to vote for was Mr. Cleveland."

"It is said that Mr. Cleveland wants you to run on a straight gold Democratic platform."

"Good night," answered the admiral, without answering the question, and retiring.

Monday next the admiral and Mrs. Dewey will move into their country house at Beauvoir, which they have taken for the summer.

PHILADELPHIA, April 7.—It was gleaned from what is considered a reliable source that Admiral Dewey had a two hours' conference, while here, with three men who came from New York. Who these men are cannot be learned. The informant, in response to questions, said the admiral's conferees were neither Grover Cleveland, W. C. Whitney nor David B. Hill. The men, it was further stated, immediately returned to New York. As to the nature of the conference nothing could be learned, but it was believed to have a close relation to Admiral Dewey's candidacy for the presidency.

While on the way from the hotel to join Mrs. Dewey on the train, a reporter asked Mr. Dewey whether he had any visitors besides Captain Brownson, and the admiral replied:

"I left orders at the hotel office that I would see no one."

"But did you see any one?"

"The orders I gave were explicit."

This was the only answer the admiral would give.

"It has been stated that if McKinley and Bryan are nominated you will run independently, is that true?"

"I have never said so."

"Admiral, how do you feel about the way the people of this country have received your announcement?"

"Well," he replied, "one must expect a great many things to be said of a man who has taken such a step."

"Then you are not at all discouraged?"

"No, sir, I am not discouraged."

WHITNEY NOT BACK OF DEWEY.

He Thinks the Hero of Manila Did It Himself.

NEW YORK, April 7.—William C. Whitney said that all statements suggesting that he has had anything to do with the candidacy of Admiral Dewey for the presidency are without foundation. He said in part:

"I believe it to be the act of the admiral himself. His nature is simple and straightforward, and he has doubtless been solicited to become a candidate by thousands of people who would like to see him president. I imagine that if you get at the real truth you will find that to be the reason of his announcement."

DISCUSSED DEWEY'S CANDIDACY.

One of the Subjects Up For Discussion by the Cabinet.

WASHINGTON, April 7.—The cabinet meeting was largely occupied with the instructions to be given to the Philippine commission. These instructions have not yet been completed, but it is expected they will be ready in time to reach the commission at San Francisco before their sailing day, the 15th inst.

The question of the appointment of a successor to Assistant Secretary Webster Davis was discussed briefly, as was the candidacy of Admiral Dewey.

Fatal Fight Over Dewey.

CHICAGO, April 7.—One man was killed and another badly hurt in a fight here growing out of an argument over

Admiral Dewey's candidacy for president. Eugene Tucker, a colored man, was shot and instantly killed by George Miller, a barber. The latter was badly cut about the throat with a razor and may die.

## THE FAILURES ANALYZED.

Dun's Review Considers More of the First Quarter—Features of Trade Treated.

NEW YORK, April 7.—R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

Only twice in 25 years would such failures as those of the first quarter of 1900 have seemed large. They are large compared with last year and 1898, and would have looked larger in 1888. The amount of liabilities, \$56,667,055, includes \$21,161,000 for the United States Flour Milling company and \$2,490,482 for 16 banks and other financial corporations, leaving 2,894 commercial failures, with \$33,022,572 liabilities. Actual defaults in manufacturing are smaller than in the first quarter of any other year except 1899 since classified failures began, as are trading liabilities.

Quarterly reviews today show that, outside the immediate effects of stock speculation and industrial consolidations, the volume of business has been larger this year than a year ago.

A little increase in foreign exports of wheat from Atlantic ports, flour included, 2,268,622 bushels against 2,074,769 last year, served as occasion for a little rise, but the gain was lost later, and the week closes unchanged. Pacific exports were 1,025,125 bushels against 392,876 last year. Corn exports, 3,695,915 bushels, against 3,412,480 last year, for the week showed not much greater gain, while receipts were over 1,000,000 bushels larger than last year, but the price rose 1½ cents. While supplies remaining are comparatively small, slight changes in movement affect prices much.

Business in woollens is also somewhat unsatisfactory, with cancellations comparatively numerous, and orders smaller than were expected. The sinking in prices of wool continues, from ½ cent to 1 cent more having been conceded this week at three chief markets have been only 3,933,600 pounds, and the absence of manufacturers from dealings still has its natural effect.

The steel sheet consolidation, with President McMurtry of the Apollo works, at the head, promises great importance. If this, the tinplate, hoop and National Steel works make alliance with the Carnegie company, as is reported, the whole industry will sooner or later be affected.

For the present no change appears in the prices of pig, and only slightly more yielding in plates and bars to secure more business. But many new contracts are reported, including one purchase of rails for export, and the situation is generally more hopeful. The output of coke continues much the largest ever known.

Failures for the week were 159 in the United States, against 141 last year, and 29 in Canada, against 17 last year.

## A DAY IN WALL STREET.

Individuals Were Strong and the Railroads Generally Were Heavy. The Bond Market.

NEW YORK, April 7.—Speculation in the industrials and the railroad stocks showed a distinct dividing line Friday. Both departments were extremely irregular, but generally speaking, the industrials were strong and the railroads were heavy. The sagging tendency of the railroads seemed to be due for the most part to selling to take profits.

There was a decrease in activity in the bond market and prices yielded at some points. Some issues were well taken at advancing prices. Total sales, par value, \$2,783,000. United States refunding 2s when issued declined ½ and the 2s registered advanced ¼ in the bid price.

Lehigh Laboratory Burned.

BETHLEHEM, Pa., April 7.—The physical laboratory of Lehigh university, one of the largest and best equipped in the country, was burned to the ground and all its scientific apparatus destroyed. The building was a four-story stone structure erected in 1893 at a cost of \$150,000. The apparatus was valued at \$50,000 and included all modern improvements. There is only \$50,000 insurance.

Deweys Returned to Washington.

PHILADELPHIA, April 7.—Admiral and Mrs. Dewey, who arrived here to attend the concert in aid of the families of soldiers and sailors killed in the Philippines, returned to Washington on the congressional limited express over the Pennsylvania railroad.

WILMINGTON, O., April 7.—C. Q. Hildebrand was nominated for congress by the Republican convention in the Sixth congressional district, breaking the deadlock.

## DECIDED FOR BECKHAM

He Is Governor, According to Kentucky High Court.

ONLY ONE REPUBLICAN DISSENTS.

The Other Two Judges of Taylor's Party Concur in the Final Conclusion—Republicans Will Appeal to the United States Supreme Court.

FRANKFORT, Ky., April 7.—The court of appeals handed down a decision in the governorship case in favor of the Democrats. The opinion is by six of the judges—four Democrats and two Republicans. One Republican, Durrelle, dissented.

The Republican judges, Burnam and Guffy, gave a separate opinion from the Democratic judges, but which agreed with the Democratic members in its conclusion.

Judge Hobson wrote the opinion of the court. The concurrence of Judges Burnam and Guffy with the four Democratic judges was a surprise generally, but to the Republicans especially, and there is much speculation now as to whether the talk of appeal to the United States supreme court will be prosecuted.

The opinion holds that the action of the legislature in seating Governor Beckham was final, and that the courts have no power to reverse it; that Governor Taylor exceeded his authority in adjourning the legislature to London, and that the journals of the two houses of the legislature being regular, cannot be impeached.

Ex-Governor W. O. Bradley, chief counsel for Governor Taylor, authorized the statement that an appeal on behalf of Governor Taylor and Lieutenant Governor Marshall be carried to the supreme court of the United States. Mr. Bradley and Judge W. H. Yost, counsel for the Republican state officers, were in communication with Governor Taylor for several hours this afternoon and the above statement was made at the close of the conference. It is stated that Colonel W. C. P. Breckinridge and Republican leaders from different parts of the state will meet Governor Taylor in conference here today.

STORY OF THE GOEBEL PLOT.

Follows Lines of Testimony of Wharton Golden, at Powers Hearing.

LOUISVILLE, April 7.—The Courier Journal prints a circumstantial story which purports to give the details of the conception and execution of the plot to kill Senator Goebel. The story is based upon evidence said to have been given to the attorneys for the prosecution by Wharton Golden, W. H. Culton, H. E. Youtsey and others. The story gives the name of the man suspected of having fired the shot that killed Senator Goebel. He is a Clay county feudist. He is supposed to be in the mountains, and has not been arrested.

The story follows the evidence given by Golden in the preliminary trial of Caleb Powers, as to the bringing to Frankfort of the armed mountain feudists. The men implicated in the conspiracy are the same who were implicated by Golden's testimony, several of whom are now under arrest, while others are either in the mountains or in neighboring states. The story follows Golden's testimony as to the plan to cause a riot in the legislature during which Democratic members were to have been killed, tells how the alleged plan to kill Senator Goebel was carried out, of the purchase of a well-known Cincinnati house of 25 steel bullets, smokeless powder cartridges, the procuring of a 38-caliber rifle with which the shooting is said to have been done, the weapon being returned an hour afterward, and the payment of \$1,600 in advance to the man who did the shooting. After the shooting, the man who did the work is said to have been escorted to the mountains by a number of armed men.

Bogus Captain Clark Sentenced.

NEW ORLEANS, April 6.—Julius Moyse, alias Captain Clark, who, during Mardi Gras week, married Miss Bertha Warnken under the false representation that he was the commander of the battleship Texas, then in port, and who was convicted Wednesday on the charge of impersonating a United States officer and with having obtained money under false pretenses, was sentenced to three years' imprisonment.

Their Insurance Void.

COLUMBUS, April 7.—H. A. Lanman & Co., whose factory at the penitentiary was burned several days ago, have \$20,612 insurance with companies not licensed to do business in Ohio. The state insurance commissioner gave notice that he would promptly cause the arrest of any person coming into the state to adjust the losses for these companies.

## CENSUS OF LIVE STOCK.

Director Merriam Even Wants the Number in Cities and Villages Reported to Him.

WASHINGTON, April 7.—The new law of the census which permits the director of the census to enumerate all the live stock found in cities, villages, lumber and mining camps and elsewhere off the farm and range, promises to provide, for the first time, an adequate basis for estimating the supply of stock on hand at a given time, the probable natural increase in that supply under normal conditions and the probable condition of future markets.

In reports to the agricultural department swine, goats, asses and burros are omitted. Of course, the live stock to be found in cities and villages are also omitted, because never enumerated; but all will be comprehended in the twelfth census returns, which will swell the total wealth represented in this class of property to perhaps \$3,000,000,000—an amount so stupendous that Director Merriam feels he was fully warranted in making extra preparations, not only for a complete enumeration, but an adequate classification of domestic animals.

The age classification will show the number of calves, lambs, colts and mule colts, under 1 year old; heifers, 1 and 2; steers, 1, 2, 3 and over; "cows kept for milk," 2 and over; "cows and heifers not kept for milk," 2 and over; bulls, 1 and over; rams and wethers, 1 and over; horses and mules, 1, 2 and over; ewes, 1 and over; goats, swine, asses and burros, "all ages."

Director Merriam hopes every stockman will exert himself to return his live stock with perfect accuracy, so that the twelfth census of domestic animals will be entirely satisfactory.

### SPOKE IN FAVOR OF QUAY.

Senator Sullivan Advocates the Seating of Governor Stone's Appointee.

WASHINGTON, April 7.—In the senate Mr. Sullivan made an address in support of M. S. Quay's claim to a seat in the senate as a senator from Pennsylvania. He maintained that both as a matter of policy and as a matter of justice to the state, the governor should be conceded and should exercise the authority to name the senator in the event that the legislature for any reason should fail to elect. For these reasons, he declared his intention of voting for the seating of Mr. Quay.

When the reading clerk of the senate had reached that part of the minutes of the day before which related to the presentation of the credentials of the Hon. J. C. S. Blackburn as a senator from Kentucky, Mr. Deboe, of Kentucky, said:

"I was not aware that these credentials were presented. I want to know now if they are a subject of reference. If so, I desire to have them referred to the committee on privileges and elections."

"I suppose," suggested Mr. Jones, of Arkansas, "that the senator (Deboe) will have no objection to the motion going over."

Mr. Deboe withdrew the motion for the present.

### HAWAIIAN BILL PASSED.

Substitute For Senate Measure Went Through in the House.

WASHINGTON, April 7.—The house, after four days' debate, passed the substitute for the senate bill providing for a territorial form of government for Hawaii. The bill now goes to conference.

The most interesting feature of the day's proceedings was the attempt of Mr. Hill (Conn.) to secure the adoption of two amendments, one providing for a resident commissioner instead of a delegate in congress, and the other declaring that nothing in the act should be interpreted as a pledge of statehood. Both were overwhelmingly defeated.

### Democratic Campaign Committee.

WASHINGTON, April 7.—The Democratic congressional campaign committee have chosen Representatives McKee, of Arkansas, and Norton, of Ohio, vice chairmen, and the following executive committee: Senator Cockrell, of Missouri; Representatives Hall, of Pennsylvania; Rapert, of New York; Wheeler, of Kentucky; Daly, of New Jersey; Fitzgerald, of Massachusetts, and Denny, of Maryland.

## EPWORTH LEAGUE.

Topic For the Week Beginning April 8, "Christ Our Missionary Model"—Text, John iv, 5-15.

"Give Me to drink?"

It was not a demand, but a request. Jesus was tired and thirsty. He was sitting by the side of the well dug ages before by Jacob near Shechem. He was resting after the long forenoon's walk, while His disciples went into the village a mile away to buy provisions. The well had no bucket. In the east each person brings his own rope and earthen jar to the well with him and carries it away when he goes. Jesus had no means of drawing water, and the well was deep. A woman of the neighborhood came to draw water. No common Jew would have spoken to her, much less have consented to drink from her pitcher or be in any way under obligation to her, however thirsty he might be. She was a Samaritan, and that meant to a Jew all that a person ought not to be, morally and religiously. Besides, it was not difficult for a practiced eye to see that she was not a woman of pure character. About as hopeless a case for missionary effort as could well be found. Most people would have let her alone.

What did Jesus do? First of all, He felt sorry for her. Of course He must in mind have condemned her manner of life. Who can measure the recoil of His pure nature from her impurity? But no word or look showed anything of disgust or contempt. He held no argument about the right or wrong of her ways. He pitied her and was eager to show her a better life. Tired, hungry and thirsty, He was more hungry in soul to help her than to drink or eat Himself.

He got her to help Him. He made no offer to help her. It would have been sharply refused. He asked a favor of her. "Will you give me a drink? What a question! A Jew ask a Samaritan, and of a woman at that! What could it mean? How could He do it? In her astonishment she asks Him to explain His action. He has gained His point. Her curiosity is aroused. Her mind is awake; the doors of the soul are open. No prejudice stands in the way of the truth. Easily He leads her, step by step, until she recognizes in Him a Master Spirit who is able to quench soul thirst by His own gift of purity. The good in her is stirred to action, and the power of righteousness overcomes the evil.

Did she give Him water to drink? Who can tell? She forgot her water pot in her haste to call the men of the city to come and see the prophet. He forgot His hunger in the satisfaction of feeding a needy soul.

"They pressed Him to stay with them." So the gospel makes friends of Jews and Samaritans.

And He staid two days there. Wherever we are needed and can find those willing to receive the message, there should we stop awhile.

How much there is for every Christian worker to learn in this lesson! Jesus' mode of approach to a soul, His delicacy of touch, His courtesy, the resources of tactful earnestness; above all, His unwearying patience and unflinching sympathy, show us the way to win men.

### CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 8—Comment by Rev. S. H. Doyle.

Topic.—Christ our missionary model.—John iv, 5-15. (Quarterly missionary meeting.)

Going through Samaria as the most direct route on His way from Jerusalem to Galilee, Jesus, weary and worn from His long day's travel, sits down to rest upon the curb of the historic well of Jacob. A poor, degraded, sinful Samaritan woman comes to the well to draw water. Though belonging to a race despised by His own people, Jesus entered into conversation with her and so directed it that He made for Himself an opportunity to offer her the water of life. In this incident, in a strange land, to the member of a despised and sinful people Jesus preached the gospel, thus leaving us an example of the truest and loftiest kind of a missionary spirit and zeal.

1. Christ as a missionary was sent of God. His mission into the world was a divine mission. He came to seek and to save the lost as the business of His Father. From all eternity it was arranged in heaven that Christ should come to the world to offer salvation to the whole world through His life and death. The true missionary or soul winner at home or abroad needs to feel himself called of God. Love for

When winter comes the vital forces of nature are low, and the tree stands like

a solitary monument to the dead summer. In the winter of life, active men experience a similar lowering of vitality. In some the effect is startling. They loose their grip on life. They seem like monuments of a buried past. At this crisis there is need of a medicine which will nourish and build up the body, and increase its vital power. Such a medicine is Dr. Pierce's Golden Medical Discovery. It enriches the blood, purifies it, carries off the clogging waste of the system, increases the nutrition of the body, and produces a sound, healthy condition with abundant vital power and physical energy.

David Duggins, Esq., of Jones, Ohio Co., Ky., writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day. It has been six months since I took the medicine and I still have reasonable health. I am willing to have you publish this, and also my former letter, if you wish to, and if it proves to be of benefit to any afflicted person I will feel well repaid."

There is no alcohol or other intoxicant in "Golden Medical Discovery," neither opium or other narcotic drugs.

The dealer who offers a substitute for the "Discovery" is seeking to profit himself, not to help you. Insist on having "Golden Medical Discovery."

humanity, enthusiasm for men, will not make us willing to endure and sacrifice all that is necessary to save men. The heathen world in its sinfulness and degradation is not lovable. Man is not attractive for his own sake. Back of our efforts must be the inspiration that it is God's will that we should give and pray and labor to save the whole world. God calls us all to be missionaries; not all to go to the foreign field, but all to have some part in the work of sending the gospel to the whole world.

2. Christ, as a missionary, had the true message, Himself, as the water of life. Heathendom, like the Samaritan woman at the well, is thirsting for water—the water of life. The soul of mankind the world over is longing for God. Men are crying out for the living God, and in the efforts to find Him they are bowing down to the creature rather than the Creator, to the workmanship of their own hands. They need Christ to quench this thirst; they need Christ to show them what and where God is and how they may find Him; they need Christ to give them the water of eternal life. This must be our message to a sin cursed and dying world. Philosophy, philanthropy, humanitarianism, cannot satisfy this longing of heathendom. Only Christ can do it.

3. Christ, as a missionary, was successful. He had many difficulties to overcome. There were race difficulties, religious prejudices and social obstacles such as will be found in every mission field. But Christ overcame them all with the simple gospel of Himself as the Messiah and the water of life. Thus by prayer and self denying effort all difficulties in mission work today may be overcome and the world won to Christ.

### THE PRAYER MEETING.

The missionary committee should arrange a special programme, having appropriate hymns and prayers and five five minute addresses or papers on Christ's leading characteristics as a missionary, such as (1) Christ's call, (2) Christ's message, (3) Christ's success, (4) Christ overcoming difficulties and (5) Christ's missionary command to his disciples.
